Wireless Power Bank 8,000mAh Portable

User Manual and
Safety Instructions

Power Bank

Features

- 1) Apple Watch Magnetic Charging Module
- 2) Qi Wireless Surface
- 3) Lightning Input
- 4) USB-C Input/Outputs
- 5) Battery Level Indicator
- 6) Wireless Charge Indicator

Before First Use

Connect power bank into a wall charger to activate. The battery LEDs will light up.

Sleep Mode / Shake to Wake

Power bank goes into sleep mode after 30 seconds when not in use. Shake to wake the power bank before charging your devices.

Technical Specifications

Component: PWB1114
Input 1: Lightning Input 9W 5V / 1.8A
Input 2: USB-C Input 12W 5V/2.4A
Output 1: Qi (7.5W / 5W)
Output 2: Apple Watch Magnetic Charging Module
Output 3: USB-C Output 15W 5V/3A
Charge Indicator: White/amber LED indicator*
Dimensions: 5.57 x 2.74 x 0.49 inches
Weight: 6.17 oz.

Your wireless power bank is designed to provide optimal power delivery for your wireless device:

- 7.5W wireless charging for iPhone 8 or later
- 5W wireless charging for Wireless Charging Case for AirPods® and other compatible devices
- All Apple Watch Models

* A blinking amber LED indicates a foreign object has been detected (metal objects like keys, coins, magnets, etc.) and the device is automatically turned off to ensure safety. Removal of foreign object and proper alignment of phone will result in normal operation.

SAVE THESE INSTRUCTIONS

Warranty

At Ubio Labs, we are dedicated to designing and manufacturing products with superior performance and 100% customer satisfaction. All of our products come with a 1 year limited warranty from date of purchase.

We are always improving our products' features and functionality. We reserve the right to change product specifications at any time without notice.

IMPORTANT, RETAIN FOR FUTURE REFERENCE: READ CAREFULLY

Important Safety Instructions

WARNING - When using this product, basic precautions should always be followed, including the following:

- a) Read all the instructions before using the product.
- b) To reduce the risk of injury, close supervision is necessary when the product is used near children.
- c) Do not put fingers or hands into the product.
- d) Do not expose power bank to rain or snow.
- e) Use of a power supply or charger not recommended or sold by power bank manufacturer may result in a risk of fire or injury to persons.
- f) Do not use power bank in excess of its output rating. Overloaded outputs above rating may result in a risk of fire or injury to persons.
- g) Do not use a power bank that is damaged or modified. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion or risk of injury.
- h) Do not disassemble the power bank. Take it to a qualified service person when service or repair is required. Incorrect reassembly may result in a risk of fire or injury to persons.
- i) Do not expose the power bank to fire or excessive

temperature. Exposure to fire or temperature above 100°C may cause explosion. The temperature of 100°C can be replaced by the temperature of 212°F.
j) Have servicing performed by a qualified repair person using only identical replacement parts. This will ensure that the safety of the product is maintained.
k) Switch off the power bank when not in use.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator& your body.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

CAUTION: Risk of Fire and Burns. Do Not Open, Crush, Heat Above 45°C or Incinerate. Follow Manufacturer's Instructions.

This device complies with Industry Canada licence-exempt RSS standard(s).

Operation is subject to the following two conditions:
(1) This device may not cause interference, and

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement

The device has been evaluated to meet general RF exposure requirement. To maintain compliance with RSS102 — Radio Frequency (RF) Exposure guidelines, this equipment should be installed and operated with a minimum distance of 10cm between the radiator and your body. Cet équipement est conforme aux limites d'exposition de rayonnement d'IC RSS-102 déterminées pour un environnement non contrôlé. Cet équipement devrait être installé et actionné avec la distance minimum 10 cm entre le radiateur et votre corps.
