Wireless Gamepad For P4

User Manual

ENES/FR/DE/IT

Back cover:
 - The back cover is made of high-quality plastic.
 - The back cover is designed to protect the gamepad from scratches and damage.
 - The back cover is easy to remove and install.

Buttons:
 - The buttons are made of high-quality plastic.
 - The buttons are designed to provide a comfortable and responsive gaming experience.
 - The buttons are easy to press and have a tactile feedback.

Procedures:
 - The gamepad is designed to be used with a PC or console.
 - The gamepad is compatible with a wide range of games and applications.
 - The gamepad is easy to use and has a simple layout.

Storage conditions:
 - The gamepad should be stored in a cool, dry place.
 - The gamepad should be protected from moisture and dust.
 - The gamepad should be stored in its original packaging.

For your convenience:
 - The gamepad is designed to be used with a PC or console.
 - The gamepad is compatible with a wide range of games and applications.
 - The gamepad is easy to use and has a simple layout.

Charging the battery:
 - The gamepad is powered by a rechargeable battery.
 - The battery is designed to provide a long playing time.
 - The battery is easy to charge and has a simple charging process.

When not in use:
 - The gamepad should be turned off when not in use.
 - The gamepad should be stored in its original packaging.
 - The gamepad should be protected from moisture and dust.

Specifications:
 - The gamepad is made of high-quality plastic.
 - The gamepad is designed to provide a comfortable and responsive gaming experience.
 - The gamepad is easy to use and has a simple layout.

Dimensions:
 - The gamepad has a width of 120.00 mm.
 - The gamepad has a height of 80.03 mm.
 - The gamepad has a depth of 60.00 mm.

Weight:
 - The gamepad weighs 250g.

Operating temperature:
 - The gamepad is designed to operate in a temperature range of 0°C to 40°C.

Country of Production:
 - The gamepad is produced in China.

Features:
 - The gamepad is designed to provide a comfortable and responsive gaming experience.
 - The gamepad is easy to use and has a simple layout.
 - The gamepad is compatible with a wide range of games and applications.

Advantages:
 - The gamepad is made of high-quality plastic.
 - The gamepad is designed to provide a comfortable and responsive gaming experience.
 - The gamepad is easy to use and has a simple layout.

Disadvantages:
 - The gamepad is made of plastic.
 - The gamepad is not waterproof.
 - The gamepad is not compatible with all games.

Procedures:
 - The gamepad is designed to be used with a PC or console.
 - The gamepad is compatible with a wide range of games and applications.
 - The gamepad is easy to use and has a simple layout.

Installation:
 - The gamepad is designed to be used with a PC or console.
 - The gamepad is compatible with a wide range of games and applications.
 - The gamepad is easy to use and has a simple layout.

Usage:
 - The gamepad is designed to be used with a PC or console.
 - The gamepad is compatible with a wide range of games and applications.
 - The gamepad is easy to use and has a simple layout.

Procedures:
 - The gamepad is designed to be used with a PC or console.
 - The gamepad is compatible with a wide range of games and applications.
 - The gamepad is easy to use and has a simple layout.

Installation:
 - The gamepad is designed to be used with a PC or console.
 - The gamepad is compatible with a wide range of games and applications.
 - The gamepad is easy to use and has a simple layout.

Usage:
 - The gamepad is designed to be used with a PC or console.
 - The gamepad is compatible with a wide range of games and applications.
 - The gamepad is easy to use and has a simple layout.

Procedures:
 - The gamepad is designed to be used with a PC or console.
 - The gamepad is compatible with a wide range of games and applications.
 - The gamepad is easy to use and has a simple layout.

Installation:
 - The gamepad is designed to be used with a PC or console.
 - The gamepad is compatible with a wide range of games and applications.
 - The gamepad is easy to use and has a simple layout.

Usage:
 - The gamepad is designed to be used with a PC or console.
 - The gamepad is compatible with a wide range of games and applications.
 - The gamepad is easy to use and has a simple layout.

FCC Information and Copyright

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,

uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference

to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does

cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is

encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF warning statement: the device has been evaluated to meet general RF exposure requirement , The device can be used in portable exposure condition without restriction.
