### Note

- Use only AUKEY-approved chargers that support QC 3.0 fast charging (5V / 3A, 9V / 2A). Unauthorized charger may cause damage or the wireless charger may malfunction.
- Do not place foreign materials, such as metal objects, magnets, and magnetic stripe cards between the mobile device and the wireless charger.
- The wireless charger is compatible with Wireless Power Consortium (WPC) certified devices.

- 03 -

- Your device may not charge properly depending on the location of the mobile device's wireless charging coil.
- Remove the case before placing your mobile device on the wireless charger if it is too thick or made of metal.
- The maximum operating temperature of this product is 40°C.

### Product Care

Keep away from liquids and extreme heat

### FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.
