D. Note

1. **Attention:** In order to function alarm, wireless charging, night light and USB output all together, power shall be connected by a QC2.0 or QC3.0 adapters. If connected by a 5V adapter, only wireless charging and alarm can work together.
2. Do not squeeze or collide.
3. Do not disassemble or put into the fire, water, to avoid short-circuit leakage.
4. Do not use wireless chargers in severe high temperature, humidity or corrosive environments to avoid leakage of damaged circuits.
5. Do not place too close to magnetic cards (ID cards, bank cards, etc.) with magnetic strips or chips to avoid magnetic card failure.
6. Keep more than 20cm between the implanted medical device (pacemaker, implantable cochlea, etc.) and the wireless charger to avoid potential disruption to medical devices.
7. Keep children from the product in case they play the wireless charger as a toy to avoid accidents.
8. Keep the wireless charger and receiver device away from water and other liquids.
9. To clean the charger, make sure the power supply is disconnected.
10. Usage temperature: 0-45°C.
11. Usage humidity: 20-85% (40°C)
12. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

* Pictures in this manual are all illustration. Final product is subject to fact.

* Inside package: alarm charger, charging cable, manual.

* power adapter is not included. Please purchase otherwise or use phone original adapter.

III. Specification

Input: 5V/2A, 9V/1.67A

Output power: 10W (MAX)

Charging efficiency: 73%

Charging distance: ≤8mm

Frequency: 110-205KHz

Size: 145x116x73mm

IV. Applicable Devices

Products qualified with Qi standard.

§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
