

## **SETUP PHOTOGRAPHS**

This document contains 8 photographs

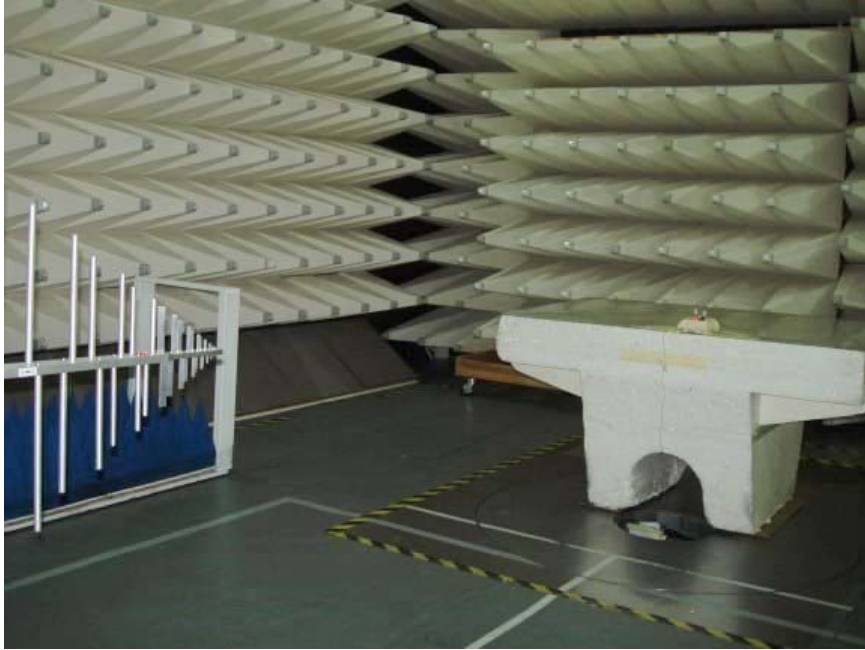

**Photograph No.1  
Setup for OBW measurements**

**Photograph No.2**  
**Setup for spurious emission measurements in the anechoic chamber below 30 MHz**

**Photograph No.3**  
**Setup for carrier field strength and spurious emission measurements in the anechoic chamber below 1000 MHz**

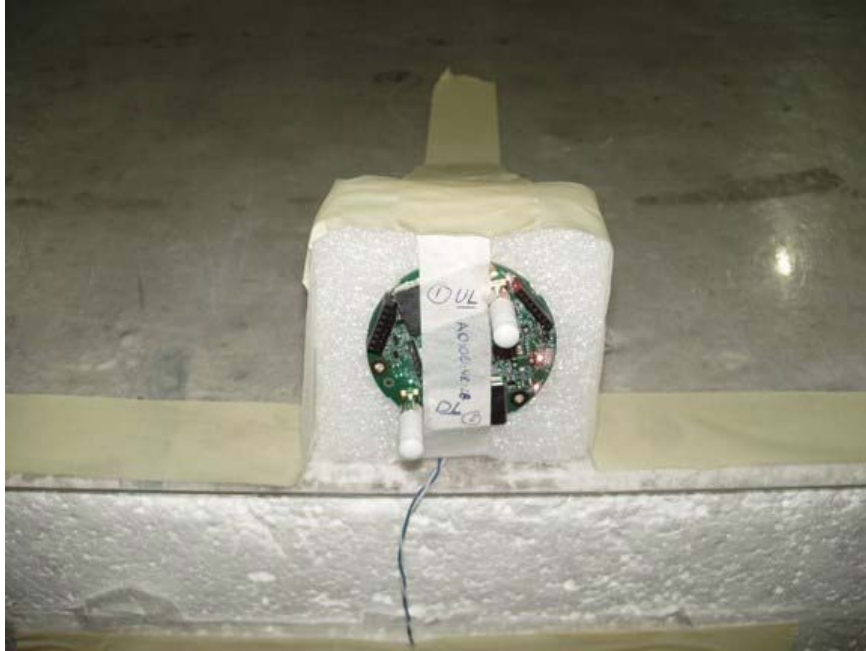

**Photograph No.4**  
**Setup for peak output power in the anechoic chamber, EUT close view in X-axis position**

**Photograph No.5**  
**Setup for peak output power in the anechoic chamber, EUT close view in Y-axis position**

**Photograph No.6**  
**Setup for peak output power in the anechoic chamber, EUT close view in Z-axis position**

**Photograph No.7**  
**Setup for spurious emission measurements in the anechoic chamber above 1000 MHz**

**Photograph No.8**  
**Setup for conducted emission measurements on the AC power lines**
