

2ATPR-INVUE-MS1002

MicroPlayer5 MS1002

INVUE is international company providing retail security products. Microplay MS1002 is our latest build for interoperatable device to help the retail shop leverage their sales and reduce the cost.

Power supply:

Retailers are asked to use INVUE PS412 adaptor for the device power supply. Device consume 5V 1A ~ 1.5A power from the adaptor.

Switch on:

Plug on the USB-A plugger into the adaptor, device will switch on by itself. The INVUE welcome screen will be showed and keep around 30 second for first time power on.

MS1002 build on the Android 7.0 OS, but don't have GMS related apps. retails are restricted for installing the apps in spite of microsigns browser.

Reset:

There is a reset hole in the back side of the device. User can reset the device in case some abnormal issues happen.

Microsigns browser

See the manual for Microsigns system manual for service and clients managment. Microsign browser is used to build up the bridge with user and client's server,

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does

cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
