**Product Specification**

Product Name	Baby swing chair
Model Number	BB005
Input Voltage	100-240V/50/60Hz
Output Voltage	5V --- 1A
Applicable age	0-12 months
Standard	ASTM F2088, ASTM F963
Warning	Do not use the non-matching adaptor

**Product Feature**

This product has been certificated by ASTM F2088, ASTM F963

**Caution**

- 1) Practical in adult supervision.
- 2) No short circuit of power terminals.
- 3) Forbid to use the non-matching adaptor ,the input voltage of adaptor is 100-240V/50/60Hz
- 4) Keep the adaptor away from child while using.
- 5) Check the adaptor, accessory at regular preperiod. If you find any damages of parts please stop using.

## Parts Instruction

Please check the quantity of items;  
please contact the shop if there are any missing parts.

No.	Item	Quantity
A	Base frame	1
B	Seat frame	1
C	Canopy	1
Accessories: Manual x1, Adaptor x1, DC line x1, Remote control x1		

## Product Structure

Refer to the actual product.

## WARNING

### FALL and STRANGULATION HAZARDS:

Infants have suffered head injuries falling from swings and have strangled in straps.

**FALL HAZARD:** Children have suffered head injuries falling from rockers.

- ALWAYS use restraints. Adjust to fit snugly.
  - STOP using product when infant attempts to climb out (approximately 9 months).
  - Stay near and watch baby during use. This product is not safe for sleep or unsupervised use. If baby falls asleep, remove baby as soon as possible and place baby on a firm, flat sleep surface such as a crib or bassinet.
  - NEVER lift or carry baby in rocker.
  - STOP using product when baby starts trying to sit up or has reached [maximum weight not to exceed 20 lbs.], whichever comes first.
  - ALWAYS place rocker on floor. Never use on any elevated surface.
- SUFFOCATION HAZARD:** Babies have suffocated when seats tipped over on soft surfaces.
- NEVER use on a bed, sofa, cushion, or other soft surface.
  - Stay near and watch child during use. This product is not safe for unsupervised use or unattended sleep.

### FCC Compliance Statements

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help. Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. The base bracket should be installed and operated with minimum distance 20cm between the radiator and your body.

## Remote control

## Panel
