FCC WARNING STATEMENT

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Product Feature

This product has been certificated by EN71-1 EN71-2 EN71-3 .

Product Specification

Product Name	Baby swing chair
Model Number	BB007
Input Voltage	100-240V/50/60HZ 0.3A
Output Voltage	5-6V \leq 1000 mA
Applicable age	0-6 months old
Standard	EN71-1 EN71-2 EN71-3
Warning	Do not use the non-matching adaptor

WARNING

- 1) Do not charge with non-rechargeable lithium batteries.
- 2) Practical in adult supervision.
- 3) When charging with adaptor, please take out the batteries.
- 4) Do not use with mixed batteries
- 5) The battery should be placed in the correct polarity.
- 6) The exhausted battery should be removed from the product.
- 7) No short circuit of power terminals.
- 8) Forbid to use the non-matching adaptor ,the input voltage of adaptor is 100-240V/50/60HZ 0.3A
- 9) Keep the adaptor away from child while using.
- 10) Check the adaptor, accessory at regular preriod. If you find any damages of parts please stop using.
