GETTING STARTED/ COMENZANDO

- Insert SIM card on the right side of the phone. The battery can not be disassembled.
- Inserte la tarjeta SIM en el lado derecho del teléfono. La batería no se puede desarmar.

**INSERTING/REMOVING SIM CARDS
INSERTAR / RETIRAR TARJETAS SIM**

- Use the supporting tools to take out the card on the right side of the phone, put it into the SIM card and insert the card into the phone.
- Use las herramientas de soporte para sacar la tarjeta del lado derecho del teléfono, colóquela en la tarjeta SIM e inserte la tarjeta en el teléfono.
- After inserting the SIM card, close the slot and wait a few minutes for your phone to display Network information.
- Después de insertar la tarjeta SIM, cierre la ranura y espere unos minutos a que su teléfono muestre la información de la red.

Inserting TF Card:

- Use the matching tool to remove the card tray on the right side of the phone, insert the TF card, and then insert the card tray into the phone.

Removing TF Card:

- Close all applications and documents which have been opened from the TF card.
- Select "setup" -- "storage", click the SD card to enter the file management interface, click the "setup" button to select storage Settings, and "SD card" will pop up.
- Use the matching tool to remove the card tray on the right side of the phone, remove the TF card, and then insert the card tray into the phone.

Insertar Tarjeta TF:

- Use la herramienta correspondiente para retirar la bandeja de la tarjeta en el lado derecho del teléfono, inserte la tarjeta TF y luego inserte la bandeja de la tarjeta en el teléfono.

Extracción de la tarjeta TF:

- Use la herramienta correspondiente para retirar la bandeja de la tarjeta en el lado derecho del teléfono, retire la tarjeta TF y luego inserte la bandeja de la tarjeta en el teléfono.

WARNING:

To avoid damage to the phone, do not use any other kind of SIM card, or any non-standard micro-SIM card cut from a SIM card. You can get a standard micro-SIM card from your service provider.

ADVERTENCIA!

Para evitar daños en el teléfono, no utilice ningún otro tipo de tarjeta SIM o cualquier tarjeta micro SIM no estándar cortada de una tarjeta SIM. Puede obtener una tarjeta micro SIM estándar de su proveedor de servicios.

FCC Part 15: Interference Statement:
This equipment complies with part 15 of the FCC rules and Industry Canada. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Part 15: Exposición a la radiación (RF):
Este dispositivo cumple con la parte 15 de los reglamentos de la FCC. Los emisores de RF exponen a licencias de la FCC. La operadora debe sujetarse a las siguientes dos condiciones: (1) este dispositivo no debe causar interferencia perjudicial, y (2) este dispositivo debe aceptar cualquier interferencia recibida, incluyendo la interferencia que pueda causar un funcionamiento no deseado.

Emergency call

If any emergency arises, dial 112/911 (or other emergency call number) for emergency help.

Due to the nature of cellular networking, the success of emergency call is not guaranteed.

FCC Warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue.

Device types EVMFV2 (FCC ID: 2ATQQ-EVMFV2) has also been tested against this SAR limit. The highest reported SAR values for head, body-worn accessory, and product specific (Hotspot) are 0.71 W/kg, 0.87 W/kg, and 0.87 W/kg respectively. The Max simultaneous SAR is 1.08 W/kg. This device was tested for typical body-worn operations with the back of the handset kept 10mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 10mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.
