## Preface

---

Thank you for choosing the mobilephone

Features quick access to the internet. It leads you to an entirely new and fascinating mobile internet world. This manual systematically introduces many functions of this smart phone, tips and notes. Please read the safety and law section before using the smart phone.

## About Manual

---

Note: The illustrations in this manual are only for reference, and their functions are based on the real product! Because this product is updated continuously, this manual may not introduce all the features and it is only for your reference, the features are based on real product.

## Security & Law Information

---

### Battery use and security

---

1. The battery performance is dependent on wireless service network configuration, signal strength, temperature, functions or settings selected and used, etc. In order to save the electricity, you can reduce the interface for switching on the background light. When not using the wireless network, you should shut down the WLAN, Bluetooth , etc.
2. Always use the original battery and charger. The loss caused by battery or charger not produced will not be covered by the guaranty.
3. Instructions to charging: Keep the battery temperature under room temperature or near to room temperature during charging.
4. The screen may not display normally during charging if the electricity is out of power. This phenomenon is normal. You can reboot this device after charging for a while.
5. After long term use, the battery may require frequent or long time charging. This phenomenon is normal. However, if the use time is reduced and charging time is increased after normal charging, you may have to replace the battery.

*Warning: The disqualified battery or charger may cause fire, explosion, leakage or other dangers. The use of wrong battery or damaged battery may cause fire, explosion, leakage or other dangers. Please do not disassemble battery in fire, so as to prevent the explosion.*

### Attentions

---

Please read the following information to safely and effectively use the device.

- 1. Keep away from any liquid**  
Keep away from rain, water, extreme humidity, sweat or other wet objects.
- 2. Keep away from extreme hot or cold environments**  
Do not place the device under the environments where temperature is lower than 0°C (32°F) or higher than 45°C (113°F).
- 3. Keep away from microwave**  
Do not place the device in microwave oven for drying.
- 4. Keep away from dust or mud**  
Do not expose to dust, mud, sand, food or other improper substances.
- 5. Cleaning**  
Please use the dry soft cloth for drying. Do not use alcohol or other cleaning agents.
- 6. Fall prevention**  
Prevent the fall from height.

## About phone

---

**Note:** The illustrations in this manual are only for reference, and their functions are based on the real product. Basic Operations.

## Main Buttons

---

- 1. 【Home】** :Touch this button to return to home screen.
- 2. 【Power】**:When the screen is unlocked, long press【Power】to restart. In any other interface, short press this button to lock the screen.
- 3. 【Volume】**:Press 【Volume】key, to display the pop-up box of “Volume Adjust”.
- 4. 【Menu】** : Press 【Menu】 key,to display recent apps which were used.
- 5. 【Back】** :Press 【Back】 key, back to previous step.

## Turn On/Off

---

- 1.** To power on, please long press 【Power】 for three seconds until boot logo appears on the screen. Please wait patiently because the initialization takes several seconds.
- 2.** To turn it off, please long press 【Power】 , and touch “Power Off” in “Device Options” box.

## Lock and Unlock

---

- 1. Lock**  
Please press 【Power】 to lock this screen to prevent some unexpected operations.
- 2. Unlock**  
After the screen is off, please press 【Power】 to wake up the screen, and then drag the

slider upwards to unlock the screen.

## Home Screen

---

### 1. Desktop

The standby screen shows the application's shortcuts, such as phone, messaging, browser, and camera

## Video Player

---

### Video Gallery

#### View Video

Accessed into Video Player, you can view the videos in All Video and Video Folder.

#### Option Menu

In Video gallery, long press a video file, it displays Option pop-up box, and then you can carry out such operations as "Delete" and "Details"..

## Camera

---

### Camera

---

This device has double lens, Front lens and Rear lens, you can capture high-quality photos.

#### 1. Switch Between Camera and Video

After entering Camera interface, touch "Camera" or "Video", you can switch between them.

#### 2. Capture Photos

In Camera interface, you can touch "Capture" to take a photo, it can be saved in Local disk or SD Card, and you can view photos in Gallery.

#### 3. Menu Operation

When After taking a picture, you can press **【Menu】** to carry out operations.

#### 4. Gallery

About photo operations such as View, Slideshow, Label, Edit, Share, Delete, etc.,

### Video

---

This device supports double-lens camcorder function, you can camcorder high-quality videos.

#### 1. Camcorder

Touch "Video" button in Camera interface to go into Video mode; Touch "Video"

button to finish and save it.

## 2. Settings

When camcording a film, press **【Menu】**, touch “Settings” icon to enter Settings interface.

## 3. Video Gallery

In Video Gallery you can also carry out such operations as Play, Share and Delete, etc.

# Gallery

---

Gallery supports such picture formats as “bmp”, “jpg”, “gif” and “png”, etc. You can View, Slideshow, Edit, Zoom, Label, Share and Delete, etc. the pictures in Local disk and SD Card.

## 1. View Picture

In pictures index, touch one of them to enter its view, to view the previous or next picture.

When viewing a picture, you can touch the three-ring overlaying icon to spread out edit menu.

## 2. Edit

## 3. Share

On a picture browser, press the share icon ,touch “Share”, choose “Messaging” or “Bluetooth”, you can send the current picture by messaging or bluetooth.

## 4. Zoom

On a picture browser, slide your fingers on the current picture, you can zoom in this picture.

## 5. Set the wallpaper

On a picture browser, long press the picture until appear popup a menu ,touch “More”, choose “Set picture as ”, then select the Wallpaper in the flowing popup menu, and then touch **【OK】** , you set the current picture as wallpaper.

## 6. Delete

On a picture browser, touch **【Set】** , choose “Delete”, then touch **【OK】** ,you can delete a single picture.

# FM Radio

---

Plug in your earphone before use. In FM interface, Touch the setup icon can be viewed that search and show FM channel list, you can play through either earphone or loudspeaker.

**Timed shutdown:** FM will be shutdown after the set time.

**Start recording:** Start to FM record.

**Save recordings:** FM record list.

## File Manager

---

In file manager, you can view files in Local disk & SD card & USB disk. You can touch and view the supported pictures, touch and play the supported audio files, touch and play the supported video files. You can also carry out such operations as “Search”, “Copy”, “Move”, “Share” or “Delete”, etc.

### 1. Add Folder

In files index of Local disk or SD card or USB disk, touch “+” icon, create a folder, input a folder name, touch **【OK】**, then you can create a new folder.

### 2. Search

In files index of Local disk or SD card or USB disk, touch magnifyer glass icon, input a keyword, select a file type and scope, then touch **【OK】**, and then you can find a file with the keyword in its filename.

### 3. Mark

In files list, long press the file, choose one or some or all files, then select “Copy to” or “Move to” or “Delete” icon, you can copy or move or delete a single file or all the files.

### 4. Share

In files list, long press a file, it displays the Options dialog box, touch “Share”, choose “By Email”, you can share this file to others by Email.

### 5. Copy

In files list, long press a file, it displays the Options dialog box, touch “Copy to”, choose a target path, then press **【Menu】**, touch **【OK】**, you can copy this file into the target path.

### 6. Move

In files list, long press a file, it displays the Options dialog box, touch “Move to”, choose a target path, then press **【Menu】**, touch **【OK】**, you can move this file into the target path.

### 7. Rename

In files list, long press a file, it displays the Options dialog box, touch “Rename”, edit its name, touch **【OK】**, you can rename a file or a folder.

*Note: The default folders can't be renamed.*

# Clock

---

## Alarms

---

You can set several clocks in all. Click a alarms to enter its edit state, you can edit repeat,ringtone,vibrate and label, etc.

## World Clock

You can add clocks in different countries.

## Timer

---

You can use the timer to record the duration of an activity by countdown.

## Stopwatch

---

You can record the duration of an activity with a stopwatch.

## Calculator

---

Calculator supports four arithmetic operations such as “+”, “-”, “x” and “/”, and it also displays the calculation list. You can achieve such operations as sin, cos, tan,etc.

## Settings

---

## SIM cards and Cellular networks

---

### 1. SIM information

Display SIM information and you can open and close both SIM cards.

## 2. Prefer SIM

You can set preferred SIM for cellular data,calls and SMS messages.Also you can set cellular network.

## Wi-Fi

---

In wireless network control, you can set WLAN,, VPN settings, Airplane mode, etc.

### 1. WLAN On/Off

Touch “WLAN” to switch between “On” and “Off”.

*Note: Please turn off WLAN to save power when not using.*

### 2. WLAN Settings

Set up and manage the wireless access points.

#### 2.1 Scan WLAN

Scan and search WLAN devices nearby.

#### 2.2 Refresh

Search WLAN devices nearby again.

#### 2.3 Network Notification

The owner will be noticed when an open network is available nearby.

#### 2.4 Add network

Create a new WLAN, input Network SSID and Security, touch “Save ” to save it.

#### 2.5 WLAN network

It lists the WLAN network devices, touch one in the list, you can perform such operations as connection, disconnection or clear, etc.

#### 2.6 WPS Pin Entry

Connect the computer with Wi-Fi router and input the random pin in 2 minutes,so your phone will connect the Wi-Fi.

#### 2.7 WPS Push Button

Press the Wi-Fi protected Setup button on your router.It may be called WPS.

#### 2.8 Advanced

You can change more settings in it.

## Bluetooth

---

### 1. Bluetooth On/Off

Touch bluetooth to turn on or off it.

*Note: To save power, please turn off bluetooth when not using.*

### 1. Bluetooth settings

You can set bluetooth on or off, device name, discoverable, scan for devices and list the scanned devices.

#### Bluetooth On/Off

Touch Bluetooth to turn on or off it.

### **Device Name**

It displays the factory device name, touch the low-right corner until popup the hidden menu ,select the 3-line laying menu ,then choose the rename phone ,type any characters to edit its name.

### **Search For Devices**

Touch this item to search the bluetooth devices nearby.

### **Availbile Devices**

When this device find other Bluetooth devices nearby, it will display them in this list, you can click one and then input PIN for matching and connection.

## **Sound & Notification**

---

In Audio profiles, you can customize media volume,alarm volume,ring volume,vibrate,phone ringtone,notification LED and so on.

## **Display**

---

In display settings, you can perform such operations as follow.

### **1. Brightness level**

The screen brightness can be adjusted manually.

*Note: When adjusting screen brightness manually, you are required to close the function of “Adaptive brightness”.*

### **2. Sleep**

To save power, you can set the time of screen timeout, such as 15s、30s、 1 min、 2 min 、 5 min 、 10 min and 30 min.

### **3. Font size**

You can select small/normal/large/huge.

## **Storage & USB**

---

### **1. Default write storage**

Select internal storage or SD card for the default write storage.

### **2. Device storage**

It displays used space and total space of internal storage and SD card.

## **Apps**

---

It list all the apps in your devices.

## **Location**

---

### **Mode:**

High accuracy——Use GPS,Wi-fi,Bluetooth or cellular networks to determine location.

Battery saving——Use Wi-fi,Bluetooth or cellular networks to determine

location.

Device only——Use GPS to determine your location.

## Security

---

### 1. Device security

#### Screen lock

Choose screen lock style (None/Swipe/Voice unlock /Pattern/PIN/Password).

#### Lock screen message

You can edit the lock screen message which displays on lock screen.

### 2. Passwords

#### Make Password Visible

If it is set as on, all the inputted passwords are visible; If it is set as off, the inputted passwords will display as dots.

### 3. Credential Storage

#### 3.1 Trusted credentials

Such function will display trusted CA certification

#### 3.2 Install from phone storage

User can set or change the credential from your phone storage.

#### 3.3 Clear credentials

It will clear credential storage of all the contents and reset the passwords.

## Language & input

---

### 1. Language

Touch this option to enter language list, and then choose display language.

### 2. Keyboard & input methods

Select the keyboard & input methods what you wish.

## Backup & reset

---

### 1. Back up my data

Enable it to back up app data, Wi-Fi passwords and other settings to Google servers..

### 2. Network settings reset

It will reset all network settings, including Wi-Fi, cellular data and bluetooth.

### 3. DRM reset

You can delete all DRM Licenses stored on your device .

### 4. Factory data reset

If you want to reset this device, it will erase all data from the device.

Note: When the device is connecting or transferring data with PC, factory data reset is forbidden. Otherwise, it may cause data loss or data damage.

## Date & Time

---

### **1. Automatic date & time**

Use network-provided time/Use GPS-provided time/Off.

### **2. Automatic time zone**

Use network-provided time zone automatically.

### **3. Set date**

Set date manually.

### **4. Set time**

Set time manually.

### **5. Select time zone**

Set time zone manually.

### **6. Use 24-hour format**

If it is on system time is in 24-hour format, otherwise it is in 12-hour format.

### **7. Choose date format**

Touch the left or the right arrow to set date format.

## **Accessibility**

---

Manage accessibility options.

*Note: This feature is based on the real product.*

## **About Phone**

---

### **1. Status**

You can check and view battery status, battery level, SIM status, IMEI information, IP address, Wi-fi MAC address, bluetooth address, serial number and up time.

### **2. Legal information**

Check the open source license.

### **3. Model Number**

Display the device number FTJ162D.

### **4. Android version**

6.0

### **5. Baseband Version**

Display its baseband version.

### **6. Kernel Version**

Display its kernel version.

### **7. Build Number**

Display its version number.

## **Third Party Application**

---

This device is compatible with the third party applications of google apps and customized apps. You can install and remove according to needs.

*Note: When installing or using the third party applications, please take care! Only the user is responsible to the data damage or data loss, etc. that are resulted from the*

*installation and use of the third party application.*

## **FCC Note**

---

### **FCC RF EXPOSURE INFORMATION:**

WARNING!! Read this information before using your phone

In August 1986 the Federal Communications Commission (FCC) of the United States with its action in Report and Order FCC 96-326 adopted an updated safety standard for human exposure to radio frequency (RF) electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies. The design of this phone complies with the FCC guidelines and these international standards. Use only the supplied or an approved antenna. Unauthorized antennas modifications, or attachments could impair call quality, damage the phone, or result in violation of FCC regulations. Do not use the phone with a damaged antenna. If a damaged antenna comes into contact with the skin, a minor burn may result. Please contact your local dealer for replacement antenna.

### **BODY-WORN OPERATION:**

This device was tested for typical body-worn operations with the back/front of the phone kept 1cm from the body. To comply with FCC RF exposure requirements, a minimum separation distance of 1cm must be maintained between the user's body and the back/front of the phone, including the antenna. Third-party belt-clips, holsters and similar accessories containing metallic components shall not be used. Body-worn accessories that cannot maintain 1cm separation distance between the user's body and the back/front of the phone, and have not been tested for typical body-worn operations may not comply with FCC RF exposure limits and should be avoided.

For more information about RF exposure, please visit the FCC website at [www.fcc.gov](http://www.fcc.gov)

Your wireless handheld portable telephone is a low power radio transmitter and receiver. When it is ON, it receives and also sends out radio frequency (RF) signals. In August, 1996, the Federal Communications Commission (FCC) adopted RF exposure guidelines with safety levels for hand-held wireless phones. Those guidelines are consistent with the safety standards previously set by both U.S. and international standards bodies:

<ANSI C95.1> (1992) / <NCRP Report 86> (1986) / <ICNIRP> (1999)

Those standards were based on comprehensive and periodic evaluations of the relevant scientific literature. For example, over 120 scientists, engineers, and physicians from universities, government health agencies, and industry reviewed the available body of research to develop the ANSI Standard (C95.1). Nevertheless, we recommend that you use a hands-free kit with your phone (such as an earpiece or headset) to avoid potential exposure to RF energy. The design of your phone complies with the FCC guidelines (and those standards).

Use only the supplied or an approved replacement antenna. Unauthorized antennas, modifications,

or attachments could damage the phone and may violate FCC regulations.

**NORMAL POSITION:**

Hold the phone as you would any other telephone with the antenna pointed up and over your shoulder.

**RF Exposure Information:**

This product is compliance to FCC RF Exposure requirements and refers to FCC website <https://apps.fcc.gov/oetcf/eas/reports/GenericSearch.cfm> search for FCC ID: 2ATS6F3 to gain further information include SAR Values.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Do not use the device with the environment which below minimum -10°C or over maximum 50°C, the device may not work.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device is acting as master and operating in the 2.4 GHz (2412 ~2462 MHz) band. Ad Hoc function is supported but not able to operate on non-US frequencies.

## Safety Warning

---

### General precautions

- Please use your phone in accordance with rules of area. Do not use the phone when driving.
- Do not put the battery, phone or the charger into a microwave oven or high apparatus; Do not put the phone in areas with high temperature, high humidity or with air that contains dust; otherwise the phone may break down.
- Do not use near fuel or chemicals; do not use the phone in areas with a potentially explosive atmosphere; otherwise the phone may break down or cause fire.
- Keep the phone out of child's reach; otherwise the child may use it as a toy and suffer injury.
- Only professional are allowed to assemble and repair the phone. It may be of great danger and against warranty to assemble and repair the phone without permission.

### Battery precautions

- Do not dispose your battery or mobile in a fire, otherwise the battery may burst.
- Prevent the battery from humidity otherwise excessive heat, fuming and corrosion may occur.
- If the battery suffers heating up, discoloration or distortion during use, charging or storage, stop using it and change a new one.
- The battery life is limited and will be reduced after long and frequent charging. If it doesn't work after several cycles of charging, it indicates the end of its life.
- Always use the battery and battery charger authorized by the manufacturer. Such products of other brands may cause leakage, excessive heat, bursting and fire.
- Do not dispose off the battery with domestic garbage, instead you should dispose off it in line with the regulations.
