

<p><b>Solder Board-Component View 7</b></p>	
<p><b>Solder Board-Component View 8</b></p>	

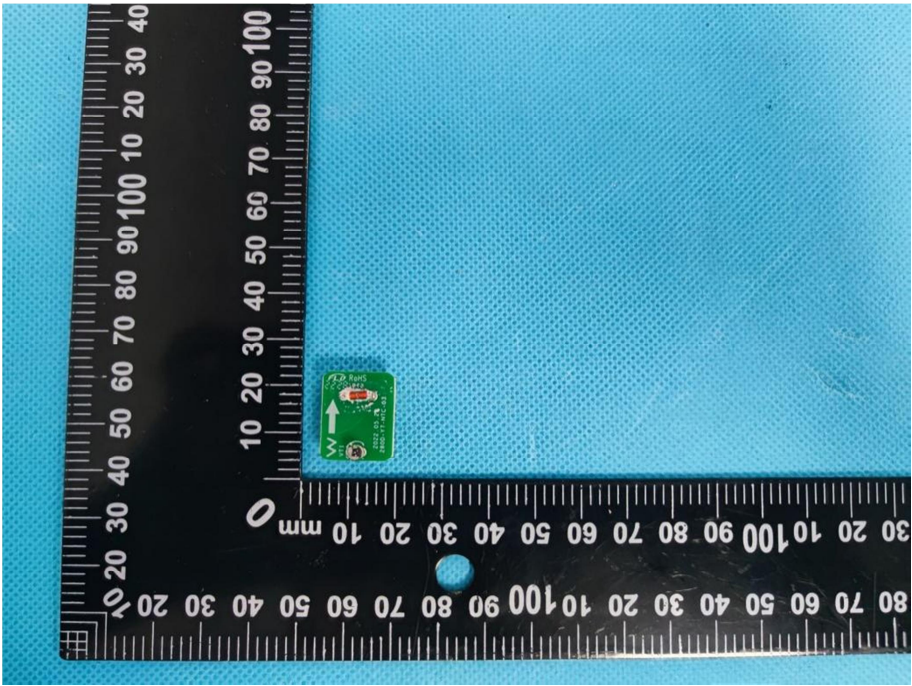

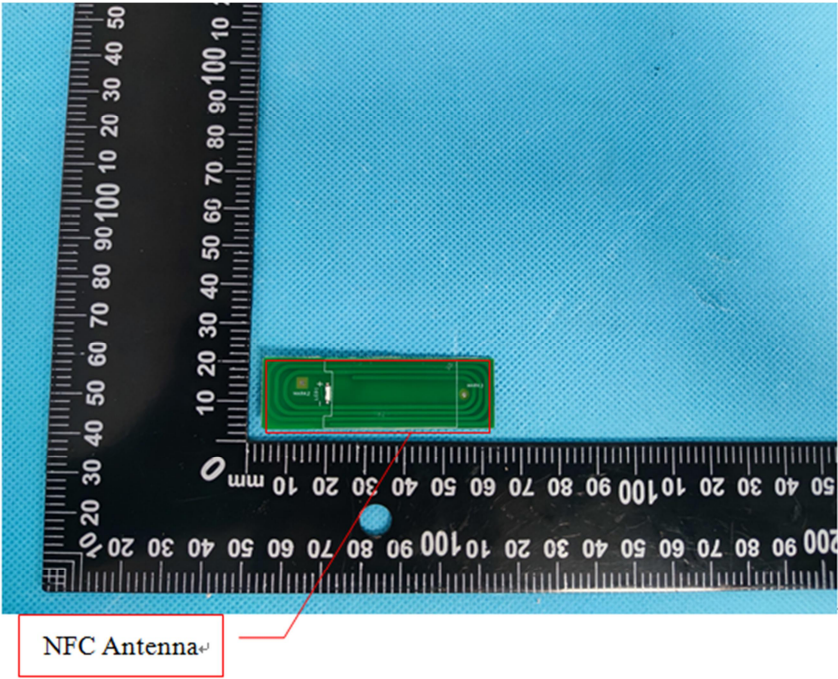

<p><b>Solder Board-Component View 9</b></p>	 <p>A photograph of a small green PCB component, likely a microcontroller or sensor, mounted on a blue textured surface. The component is rectangular with a central square area containing a small chip. It is positioned next to a black ruler with white markings in millimeters. The ruler shows the component is approximately 10 mm wide and 5 mm high. The component is oriented horizontally.</p>
<p><b>Solder Board-Component View 10</b></p>	 <p>A photograph of the same green PCB component from a different perspective. This view shows the component's top surface, which features several small, rectangular components (possibly LEDs or sensors) arranged in a row. The component is positioned next to a black ruler with white markings in millimeters. The ruler shows the component is approximately 10 mm wide and 5 mm high. The component is oriented horizontally.</p>

<p><b>Solder Board-Component View 13</b></p>	 A photograph of a small green PCB component with four gold-plated pins, mounted on a blue textured surface. A black L-shaped ruler is placed next to it for scale, showing millimeter markings. The component is positioned at approximately 100mm on both the horizontal and vertical axes of the ruler.
<p><b>Solder Board-Component View 14</b></p>	 A photograph of the same green PCB component from a different angle. The component is mounted on a blue textured surface. A black L-shaped ruler is placed next to it for scale, showing millimeter markings. The component is positioned at approximately 100mm on both the horizontal and vertical axes of the ruler.

<p><b>Solder Board-Component View 15</b></p>	 <p>A photograph showing a small green component on a blue solder mask. A black L-shaped ruler is placed next to it for scale. The ruler has markings in millimeters, with the vertical scale on the left and the horizontal scale on the bottom. The component is located approximately at the 30mm mark on the vertical scale and the 30mm mark on the horizontal scale.</p>
<p><b>Antenna View 1</b></p>	 <p>A photograph showing a close-up of the green component from the previous view. A red rectangular box highlights a specific area on the component. A red line points from this box to a label 'NFC Antenna' located below the image. The ruler from the previous view is also present for scale, with the component's highlighted area spanning from approximately 40mm to 60mm on the horizontal scale.</p> <p>NFC Antenna</p>
