### Bluetooth pairing Step 1

1. Turn on the bluetooth earphone and your mobile phone(or any other device) to a distance in the range of 1 meter, the closer the better.
2. The earphone is ON and confirm the pairing state, then red and blue lights will flash alternately
3. For pairing; turn on the users mobile phone bluetooth function(or other bluetooth devices). Search or scan, then the phone will look for nearby bluetooth devices, tap the search to the earphone name: BT-V20. The earphone lights will turn blue and lights will flash out, indicating a successful connection. Then you can listen to your music of the connected device.

#### Tips:

1. After the mobile phone has been successfully paired, the earphone will automatically be connected in next usage.
2. Some mobile phones after pairing connection must manually select the earphone service functions, the phone bluetooth version is 2.1 or later, when paired, no pairing code is required.
3. Bluetooth earphone pairing time up to 240 seconds, beyond this time will quit pairing status, if you are still not successfully pairing, you must repeat the above steps.
4. Earphone will automatically shut down after the non-connection exceeds 10 minutes.

### Bluetooth pairing Step 2

Pairing 2: one for two functions (to connect two bluetooth devices simultaneously)

1. Make sure the earphone is successfully connected to the first mobile phone (in the connection status)
2. Press the earphone multifunction button to re-enter pairing status, start another bluetooth-enable mobile phone and search for bluetooth devices select BT-V20 earphone into pairing and connection is successful (refer match step 1 of the method)
3. And then open the first bluetooth-enabled mobile phone, the existing connection memory the BT-V20 earphone tap into the connection, the connection is successful, then the earphone is connected to two mobile phone simultaneously.

#### Step PC Connection

First download and install a generic bluetooth driver software

After successfully installed, your computer will have a gray lower right corner small icons

Then plug in the bluetooth adapter, then in the blue icon in the lower right corner of the computer, note: If the laptop has no bluetooth. It requires an external bluetooth adapter (not included)

Right-click, select"Show Classic Interface"

Turn off the bluetooth earphone, press and hold the multifunction key until red and blue lights flash alternately(the match), then enter the earphone is search status.

Right-Click on the computer screen, select"Search Device", then the earphones must be in the pairing mode (red and blue lights flash alternately), then the device will search all nearby bluetooth devices

Double-click the computer search to the BT-V20 bluetooth earphone

Right-click on the BT-V20 and select"Bluetooth High Quality Audio"

Now your bluetooth earphone has successfully connected to a computer, PCs can now listen to music.

#### FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
