Specifications

Model	HD-060	Name	Stratos xenon
Product size	155*102*62mm	Humidity	20-80%
packing size	200*160*80mm	working Current	<70ma
working mode	P4,pc	interface	USB
Operating distance	up to 7 m	product weight	225g
Charging Voltage	4.5-5.5V	Charging time	2.5-3.5 H
Charging Current	< 260ma	sleep time	depend on design

Input power rating: 5V = 500mA
Battery type: built-in rechargeable Lithium-Ion battery
Voltage capacity: 3.65V=
Operating temperature: 5°C-35°C (41°F – 95°F)

Battery life and duration

- Do not handle damaged or leaking lithium-ion-batteries.
- The battery has a limited life span. Battery duration will gradually decrease with repeated usage and age. Battery life also varies depending on the storage method, conditions of use and environmental factors.
- Charge in an environment where the temperature range is between 10 °C -30 °C (50 °F –86 °F).Charging may not be as effective when performed in other environments
- When the wireless controller is not used for an extended period of time, it is recommended that you Fully charge it at least once a year to help maintain battery functionality.

Use and handling precautions

- **Avoid prolonged use of this product. Tack a break at about 30 minute intervals.**
- **Stop using this unit immediately if you begin to feel tired or if you experience discomfort or pain in You hands or arms during use .If the condition persists, consult a doctor.**
- **Permanent hearing loss may occur if the headset or headphones are used at high volume. Set the Volume to a safe level. Over time, increasingly loud audio may start to sound normal but can actually be damaging your hearing. If you experience ringing or any discomfort in your ears or muffled speech, stop listening and have your hearing checked. The louder the volume, the sooner your hearing could be affected. To protect your hearing:**
 - Limit the amount of time you use headset or headphones at high volume.
 - Avoid raising the volume to block out noisy surroundings.
 - Lower the volume if you can't hear people speaking near you.
- **Avoid looking into the light of the controller when it is flashing. Stop using the controller immediately if you experience any discomfort or pain in any body parts.**

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
