Specifications	
Product Name	Embedded smart wireless charger
Model No.	GF-03WLite-12V
Input	DC 12V
Wireless charger	15W Max. Downward compatibility 10W/7.5W/5W
Protection	Over-current, over-voltage, over-temperature, short circuit, foreign object detection
Implementation	WPC 1.2.4 GB 4943.1-2011

### Hazardous substances

This mark is a product pollution control mark. The number indicates the product's environmental service life. During this period, hazardous substances will not cause major pollution to the environment nor cause damage to people or property under normal use conditions.

Component Name	Hazardous Substances					
	(Pb)	(Hg)	(Cd)	(Cr(VI))	(PBB)	(PBDE)
Electronic component	×	○	○	○	○	○
Plastic housing	○	○	○	○	○	○
Electroplated aluminum	○	○	○	○	○	○
Non-plated metal parts	○	○	○	○	○	○
Double sided tape	○	○	○	○	○	○
Synthetic cork	○	○	○	○	○	○
Glass panel	○	○	○	○	○	○

○ indicates that the content of the hazardous substance in all homogeneous materials of the component is below the limit requirements specified in GB/T26572.  
 × indicates that the content of the hazardous substance in at least one homogeneous material of the component exceeds the limit requirements specified in GB/T26572.

### Warranty instructions

The after-sales service of this product is strictly in accordance with the "Consumer Rights Protection Law of the People's Republic of China", The "Product Quality Law of the People's Republic of China" implements three-guarantee after-sales service, and the service content is as follows:

1. Within 7 days from the day after you purchase (sign for receipt), if there is performance failure of this product, as detected and determined by the after-sales service center, you can enjoy free return or exchange service.
2. Within 8-15 days from the day after you purchase it (sign for receipt), if there is performance failure of this product, as detected and determined by the after-sales service center, you can enjoy free exchange or repair service.
3. Within 1 year from the day after you purchase it (sign for receipt), if there is performance failure of this product, as detected and determined by the after-sales service center, you can enjoy free repair service.

Friendly reminder: Since packaging boxes are required to ensure the safety of product transportation during transportation, it is recommended that you keep the packaging boxes for at least 15 days from the day after signing for the goods.

**Non-warranty regulations**

If one of the following conditions applies, three-guarantee will not be implemented and only paid maintenance will be provided.

1. Damage caused by improper use, maintenance and storage by consumers;
2. Damage caused by repairs performed by non-authorized service providers designated by the company;
3. No valid three-guarantee, valid invoice nor valid purchase voucher;
4. Damage caused by force majeure.

### Packing list

Wireless charging area  
  
 LED indicator light      Metal buckle for fixing

Wireless charging equipment×1

### Installation

1. Cutting out a 90mm grommet hole in work surface by a hole saw drill.

2. Connect the device with adapter and plug into the power socket.
3. Fit into the grommet hole in work surface and lock it up.
4. Place your device directly on the wireless receiver (focus on the charging area).
5. The device will be charged automatically.

Power Input

### Product failure table

Fault phenomenon	Cause Analysis	How to do
Wireless charging is slow	Product body temperature is too high	Wait for the temperature of the product to drop to room temperature before starting wireless charging of the phone.

### Performance features

1. This product is with wireless charging function, supports Qi EPP 15W max, and is compatible with all mobile phones with Qi wireless charging
2. This product supports multiple protection functions such as intelligent foreign object detection, over-current, over-voltage, over-temperature, short circuit, etc., making it safer to use.

### Precautions

Please read and follow the following precautions carefully before installing and using this product:

1. Warning: Do not place metal products on the product to avoid heating.
2. Warning: Do not place magnetic cards such as bank cards and bus cards on the product to avoid damaging the cards.
3. Please select an appropriate adapter within the specified input voltage range.
4. When using the wireless charging function of this product, do not use a mobile phone case thicker than 3mm.

### FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

### RF Exposure Considerations

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
