Subject: Class II Permissive Change for New Co-Location Condition  
FCC ID: 2ATZ3-SCMB100  
Applicant: SmartSense by Digi  
FRN: 0028136455

To Whom it May Concern:

We are seeking a Class II permissive change to the previously certified 2ATZ3-SCMB100 module. We wish to add a new approved co-location condition. The module itself has not changed. The data included with this application demonstrates that the 2AT3Z-SCMB100 module can be safely co-located with both the SZ9TM-ZP05X and QIPELS61-US modules simultaneously and that this combination of three transmitters remains compliant with all applicable Part 15 rules.

Sincerely,

Steve Habermas
