IV. Technology Specs:

Charging voltage	5V
Charging current	150mA
Working current	35mA
Shut off current	41uA
Charging time	About 2H
Working time	About 7H
Battery capacity	280mAh
Bluetooth Ver.	Version 5.0
Bluetooth audio processing	DSP and A2DP(Advance Audio Distribution Profile)
Bluetooth frequency	2.402-2.480GHz
Bluetooth transmission distance	10M
Bluetooth MIC effective distance	0.5~2M
Bluetooth transmission output power	6dbm

V. Troubleshooting:

No response on power	.Toggle the RX-TX key and long press the power button again .Plug in the charging cable to charge the Bluetooth player for 5 minutes before turning it on
Can't play	. Make sure the connected device is working properly ·Clear bluetooth pairing and repair Bluetooth ·Is the audio cable plugged in properly
Can't charge	. Please unplug the charging cable and re-insert it . Try switching to another charger
No reaction on and off	Long press the "on/off" button for 8 seconds to resume factory Settings and start up again

VI. Warm tips:
1. Do not use this product in a dusty and humid environment with extremely high and low temperatures.
2. Do not drop the product to avoid surface damage or breakdown.
3. Do not disassemble the product,if you have any questions, please contact your dealer
4. Due to continuous improvement and enhancement of technology,changes in product performance and functionality   are subject to change without notice.

VII. Packaging
1. Manual   2. Main device
3. Audio line   4.Micro-USB Charging line

FCC Statement
NOTE: This equipment has been tested and found to comply with the limits for a
Class B digital device, pursuant to part 15 of the FCC Rules. These limits are
designed to provide reasonable protection against harmful interference in a
residential installation. This equipment generates uses and can radiate radio
frequency energy and, if not installed and used in accordance with the instructions,
may cause harmful interference to radio communications. However, there is no
guarantee that interference will not occur in a particular installation. If this
equipment does cause harmful interference to radio or television reception, which
can be determined by turning the equipment off and on, the user is encouraged to
try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the
receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could
 void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
