

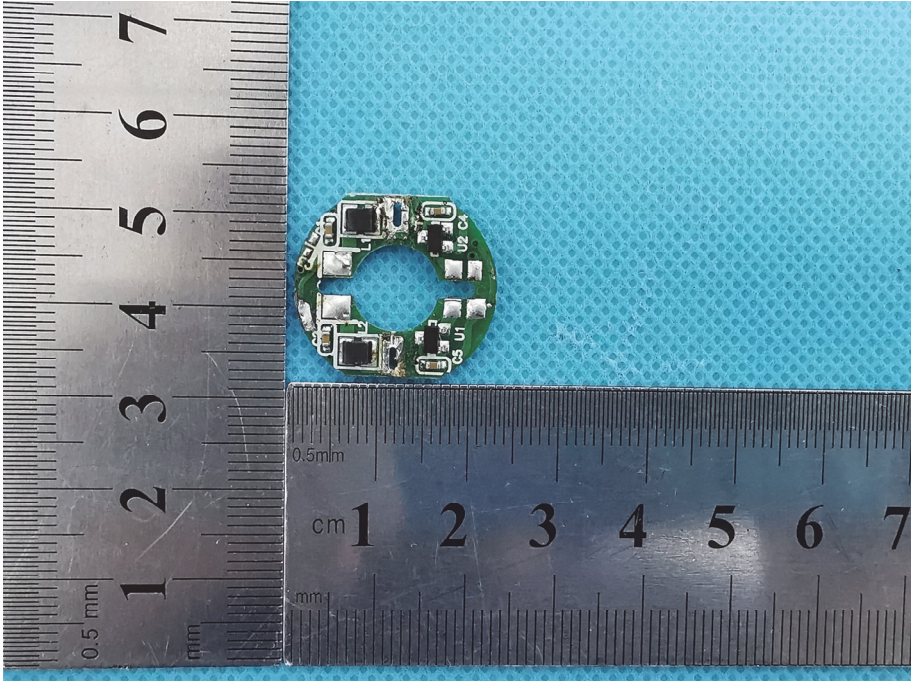

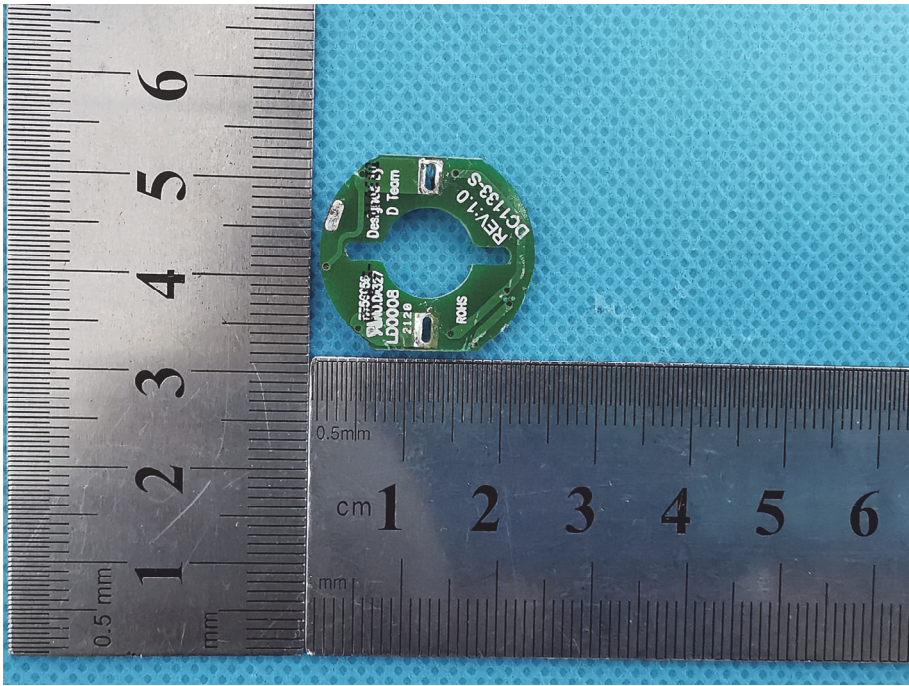

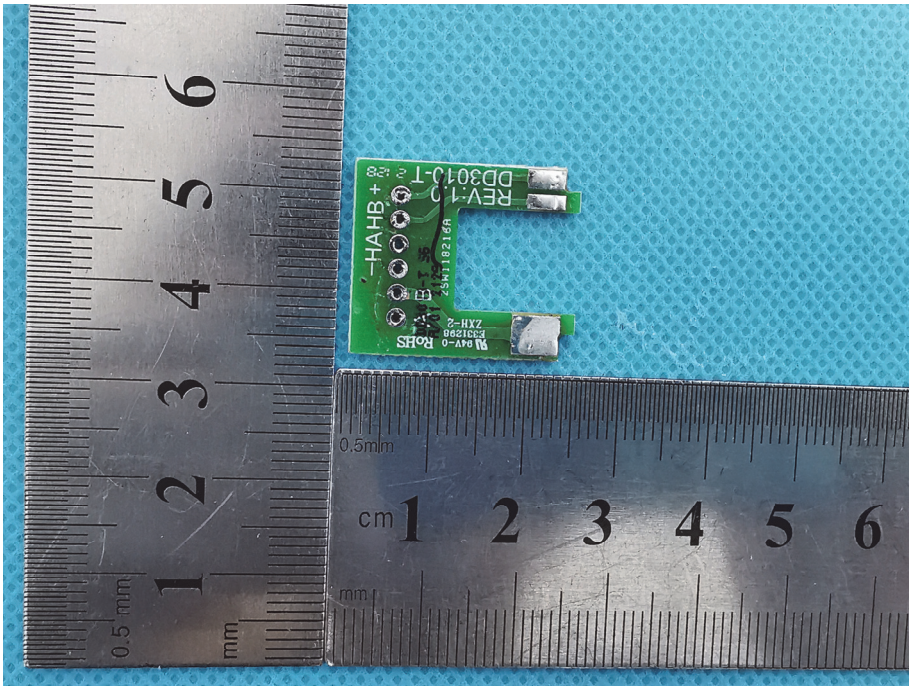

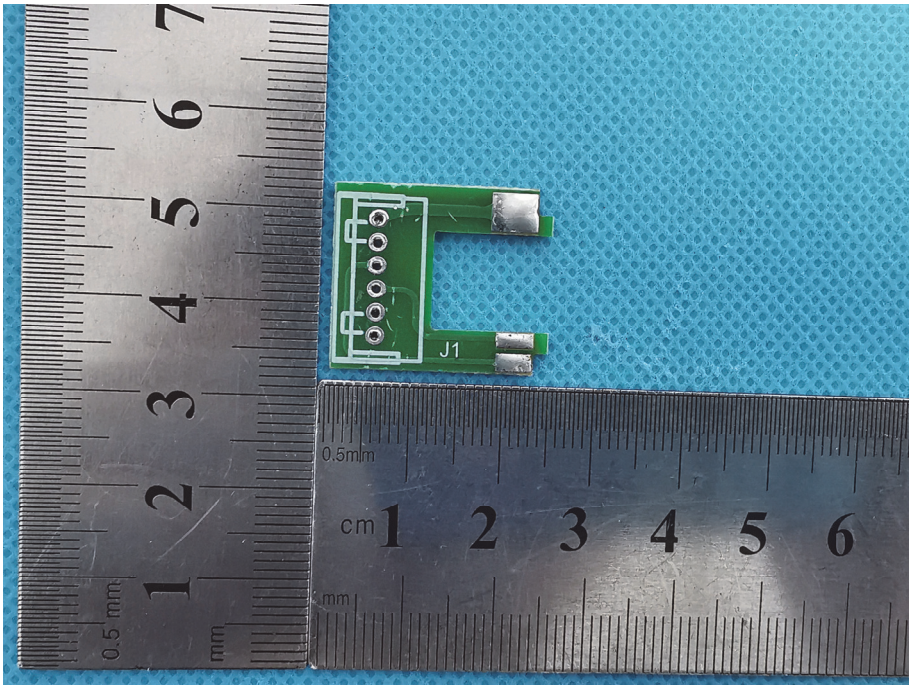

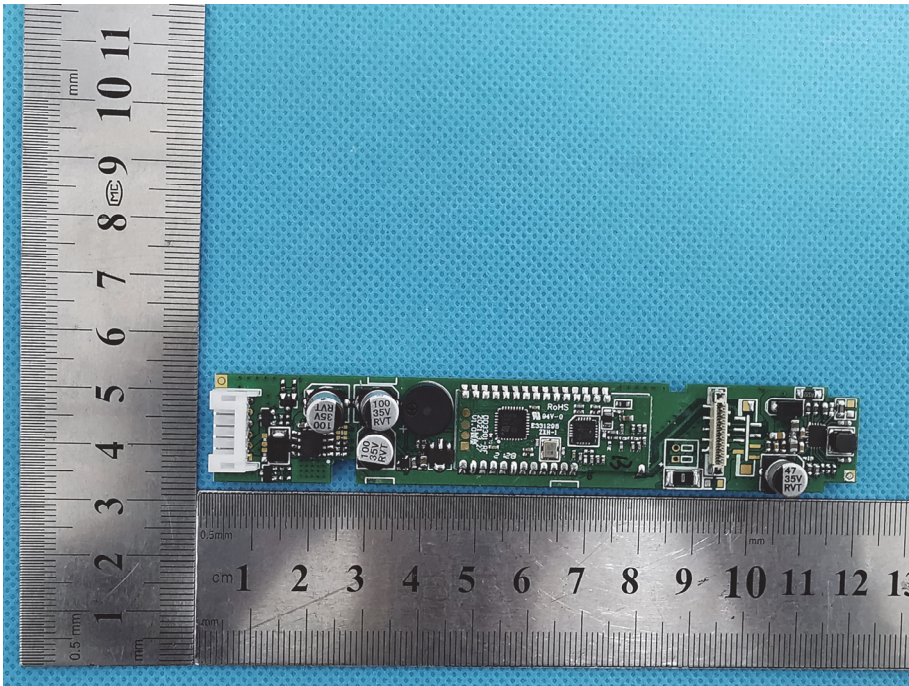

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	 <p>A photograph showing various components of the EUT housing and board. A long blue cylindrical housing is at the top. Below it are a white circular component, a blue battery, a black connector, and a black motor. A white ribbon cable is connected to a yellow component. A ruler is placed vertically on the left and horizontally at the bottom for scale.</p>
<p><b>Solder Board-Component View 1</b></p>	 <p>A close-up photograph of a circular green solder board component. The component has several surface-mounted components, including a microcontroller and various passive components. A ruler is placed vertically on the left and horizontally at the bottom for scale. The ruler shows millimeter and centimeter markings.</p>

<p style="text-align: center;"><b>Solder Board-Component View 2</b></p>	
<p style="text-align: center;"><b>Solder Board-Component View 3</b></p>	

<p style="text-align: center;"><b>Solder Board-Component View 4</b></p>	 <p>A photograph of a small green PCB component labeled 'J1'. The component has a U-shaped layout with five circular pads on the left side and two rectangular pads on the right side. It is placed on a blue textured surface next to a metal ruler. The ruler shows centimeter and millimeter markings, with a 0.5mm scale visible.</p>
<p style="text-align: center;"><b>Solder Board-Component View 5</b></p>	 <p>A photograph of a larger green PCB component. The board is populated with various electronic components, including several electrolytic capacitors (one labeled '100µF 35V RVT'), a microcontroller, and other surface components. It is placed on a blue textured surface next to a metal ruler. The ruler shows centimeter and millimeter markings, with a 0.5mm scale visible.</p>
