

## Antenna Gain Info

Manufacturer: Ningbo Dooya Mechanic & Electronic Technology Co., Ltd.

Address: No.168 Shengguang Road, Luotuo, Zhenhai, Ningbo 315202 Zhejiang P.R. China.

Parameter:

|                              |                          |
|------------------------------|--------------------------|
| Frequency Range (MHz)        | 433.05 MHz to 434.79 MHz |
| Bandwidth (KHz)              | 100KHz                   |
| Input Impedence ( $\Omega$ ) | 50 $\Omega$              |
| Feeding Point                | Direct connect mode      |
| Antenna Type:                | Line                     |
| Length                       | 177.5mm                  |
| V.S.W.R                      | $\leq 2.5$               |
| Gain (dBi)                   | $< -2$ dBi               |
