

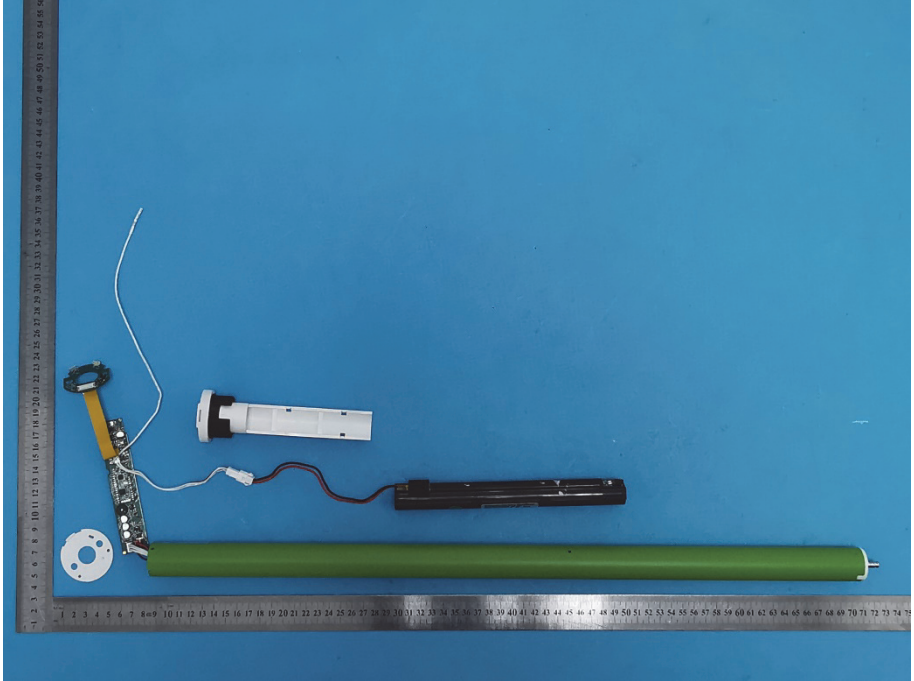

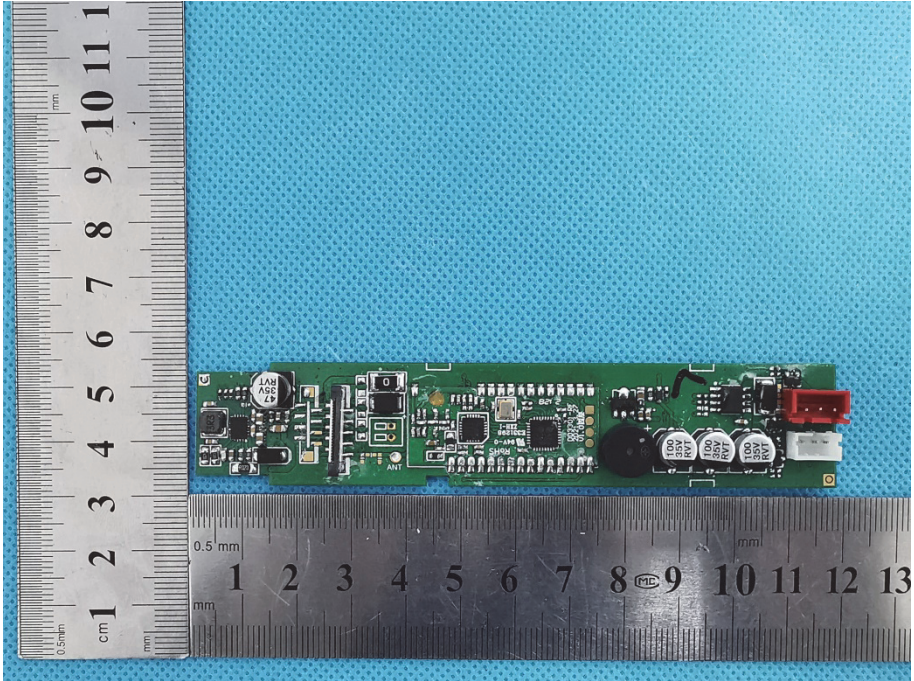

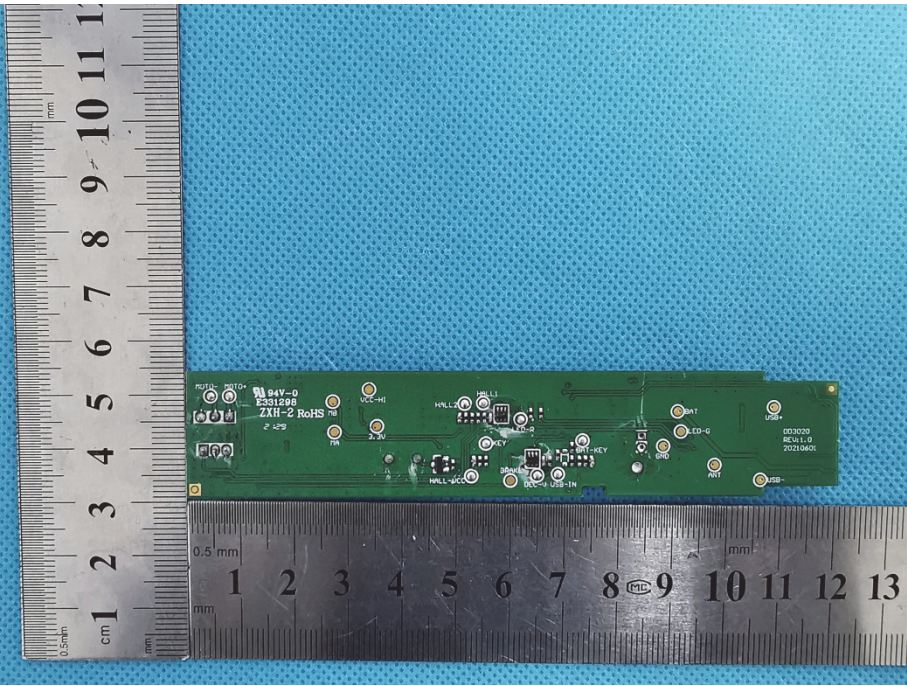

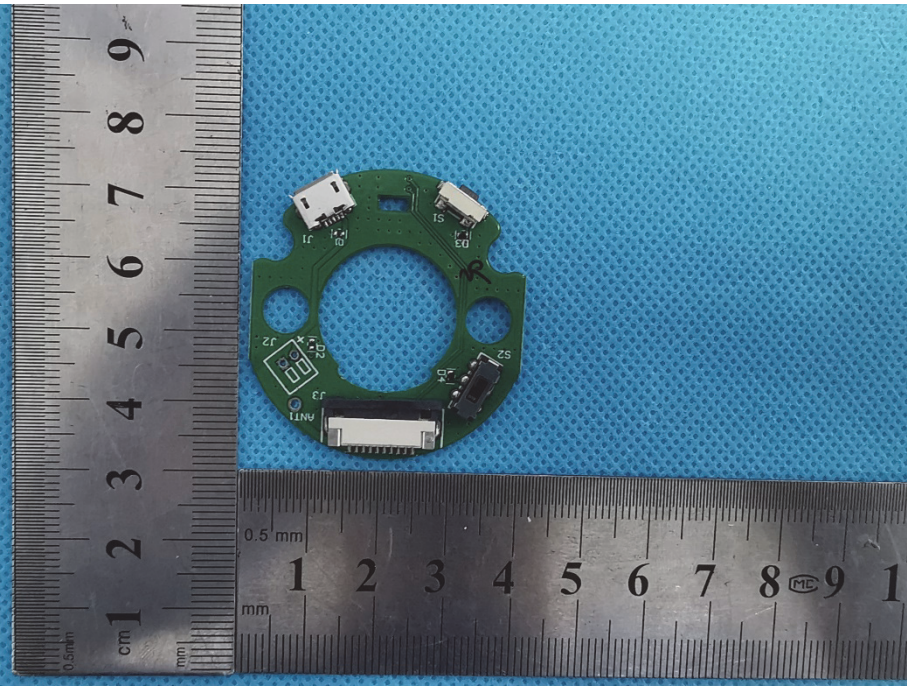

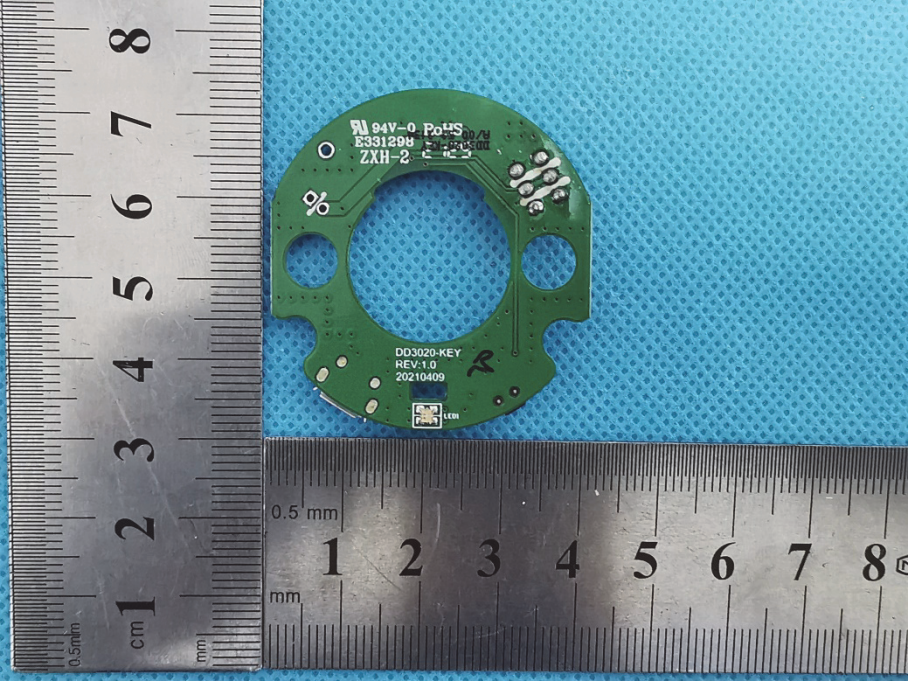

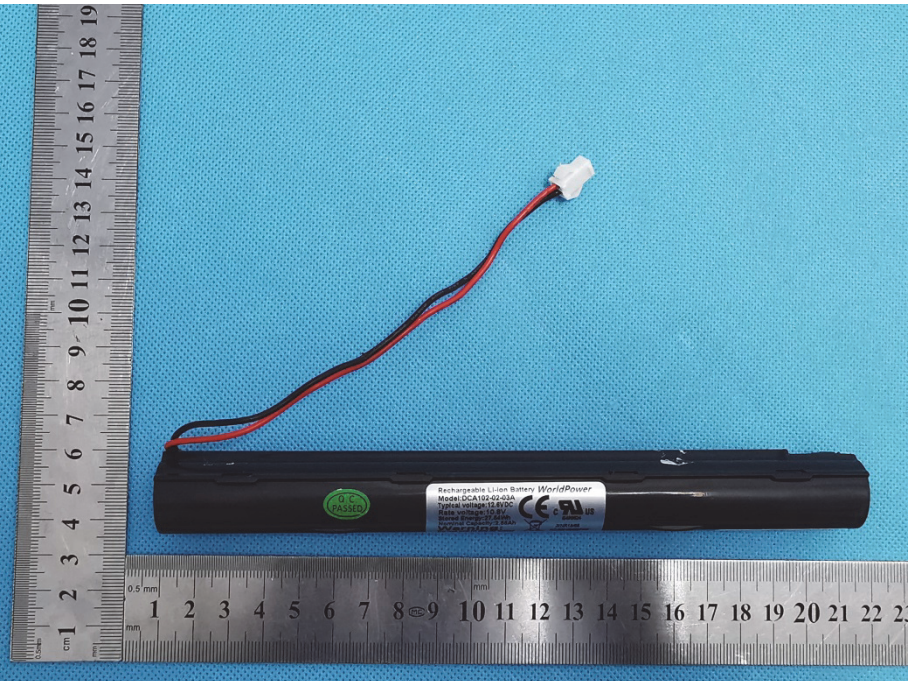

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	 A photograph showing the internal components of an EUT. On the left is a green printed circuit board (PCB) with various electronic components, a white circular component, and a white antenna. To the right is a white plastic housing component. Below these is a long, green cylindrical battery. A metal ruler is placed at the bottom for scale, showing centimeter and millimeter markings.
<p><b>Solder Board-Component View 1</b></p>	 A close-up photograph of the green PCB component. The board is populated with various electronic components, including integrated circuits, capacitors, and a red connector. A metal ruler is placed at the bottom for scale, showing millimeter markings. The background is a blue textured surface.

<p style="text-align: center;"><b>Solder Board-Component View 2</b></p>	
<p style="text-align: center;"><b>Solder Board-Component View 3</b></p>	

<p style="text-align: center;"><b>Solder Board-Component View 4</b></p>	 <p>A photograph of a green circular PCB component with a central hole and two side holes. The component is placed on a blue textured surface next to a metal ruler. The ruler shows centimeter and millimeter markings. Text on the PCB includes: '94V-0 PoHS', 'E331209', 'ZXH-2', 'D03020-KEY', 'REV-1.0', and '20210409'. There are also some handwritten marks and a small logo on the board.</p>
<p style="text-align: center;"><b>Solder Board-Component View 5</b></p>	 <p>A photograph of a black cylindrical battery with two wires (red and black) extending from one end. The battery is placed on a blue textured surface next to a metal ruler. The ruler shows centimeter and millimeter markings. Text on the battery includes: 'Rechargeable Li-ion Battery WorldPower', 'Model: DCA110-42-42A', 'Nominal Voltage: 3.7V', 'Rated Capacity: 420mAh', and 'WorldPower'. There is also a green 'PASS' sticker on the battery.</p>
