

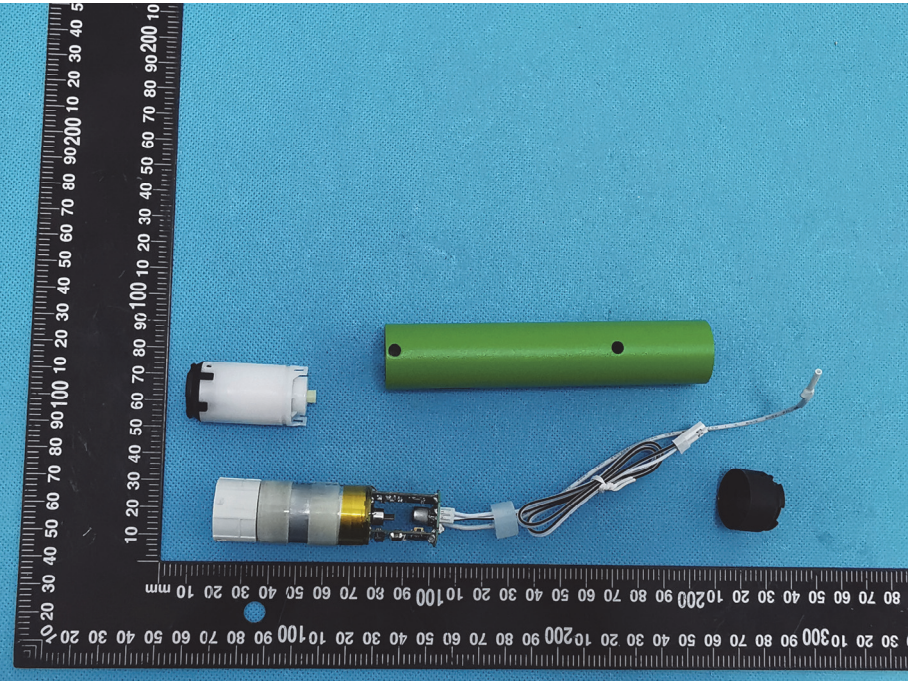

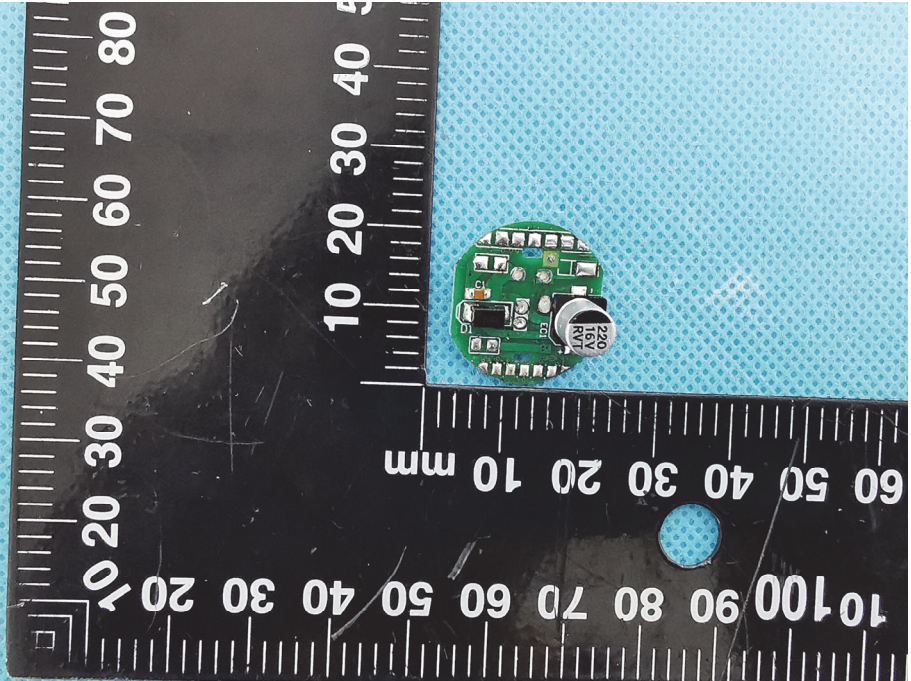

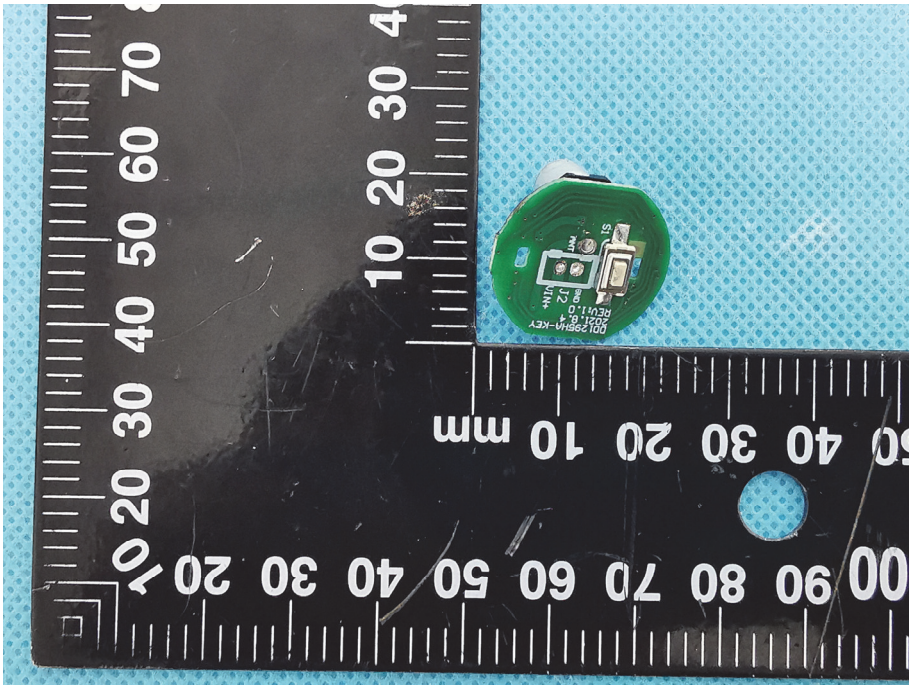

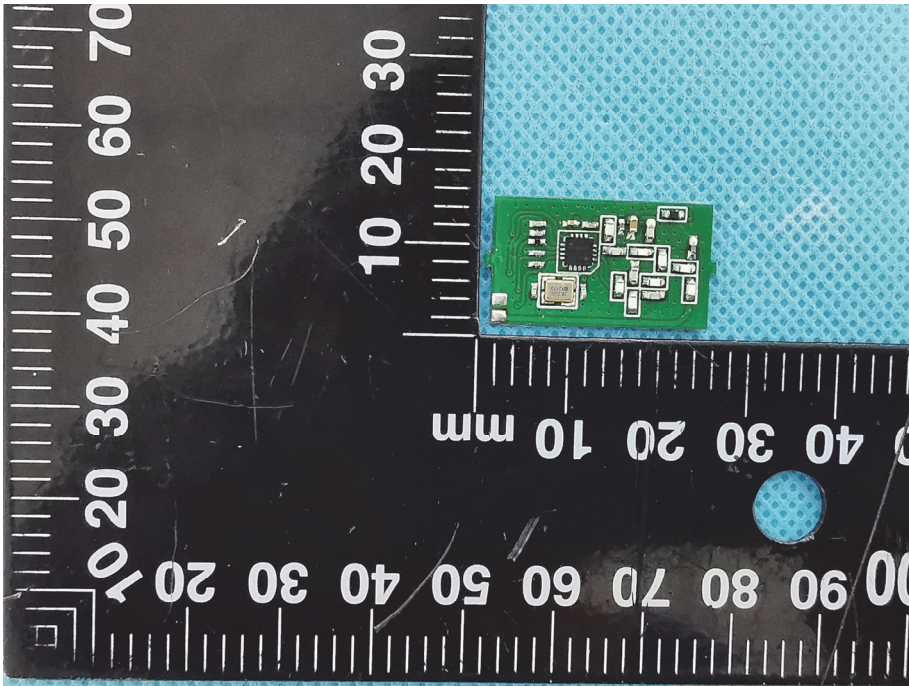

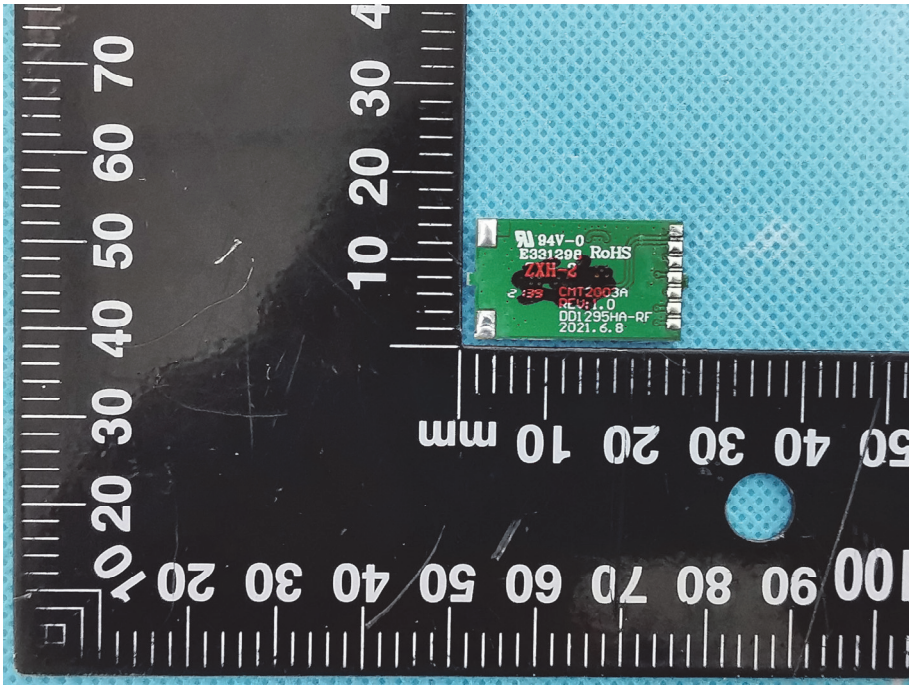

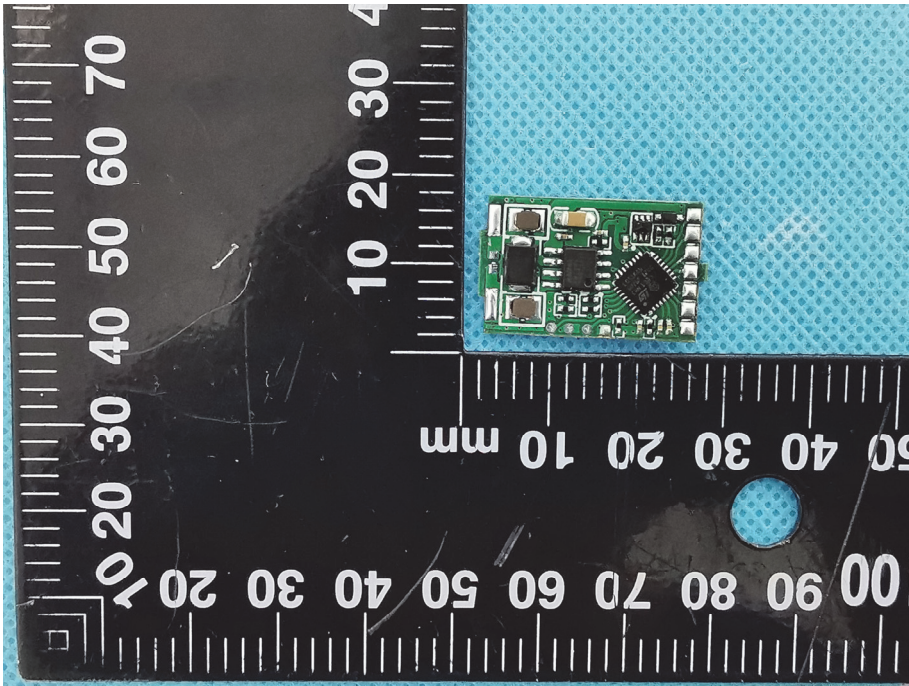

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>A photograph showing the disassembled components of an Electronic Under Test (EUT) on a blue textured surface. A black ruler is placed vertically on the left side for scale. The components include a white cylindrical motor, a green cylindrical housing, a printed circuit board (PCB) with various electronic components and a white cable, and a small black circular component.</p>
<p>Solder Board-Component View 1</p>	 <p>A close-up photograph of a small green PCB component mounted on a board. The component is circular and features several surface-mounted components, including a silver electrolytic capacitor labeled '220 16V R47'. A black ruler is positioned to the left of the component for scale.</p>

<p style="text-align: center;">Solder Board-Component View 2</p>	 A photograph showing a small, circular green printed circuit board (PCB) component mounted on a larger blue PCB. The component is positioned on the right side of the frame. A black ruler with white markings is placed below the component, showing measurements in millimeters. The ruler has markings for 10, 20, 30, 40, 50, 60, 70, and 80 mm. The component is approximately 10 mm in diameter. The blue PCB has a fine grid pattern. The background is a light blue surface.
<p style="text-align: center;">Solder Board-Component View 3</p>	 A photograph showing a larger green PCB component mounted on a blue PCB. The component is positioned on the right side of the frame. A black ruler with white markings is placed below the component, showing measurements in millimeters. The ruler has markings for 10, 20, 30, 40, 50, 60, 70, and 80 mm. The component is approximately 30 mm in length and 15 mm in width. The blue PCB has a fine grid pattern. The background is a light blue surface.

<p style="text-align: center;">Solder Board-Component View 4</p>	 <p>A photograph showing a small green PCB component mounted on a blue perforated metal surface. The component is positioned on a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 20 mm. The component has several markings: '94V-0', 'E381298', 'RoHS', 'ZXH-2', 'CMT2003R', 'REV: 1.0', 'DDI295HA-RF', and '2021.6.8'. The component is oriented vertically on the ruler.</p>
<p style="text-align: center;">Solder Board-Component View 5</p>	 <p>A photograph showing a larger green PCB component mounted on a blue perforated metal surface. The component is positioned on a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 30 mm. The component has several markings: '94V-0', 'E381298', 'RoHS', 'ZXH-2', 'CMT2003R', 'REV: 1.0', 'DDI295HA-RF', and '2021.6.8'. The component is oriented vertically on the ruler.</p>
