

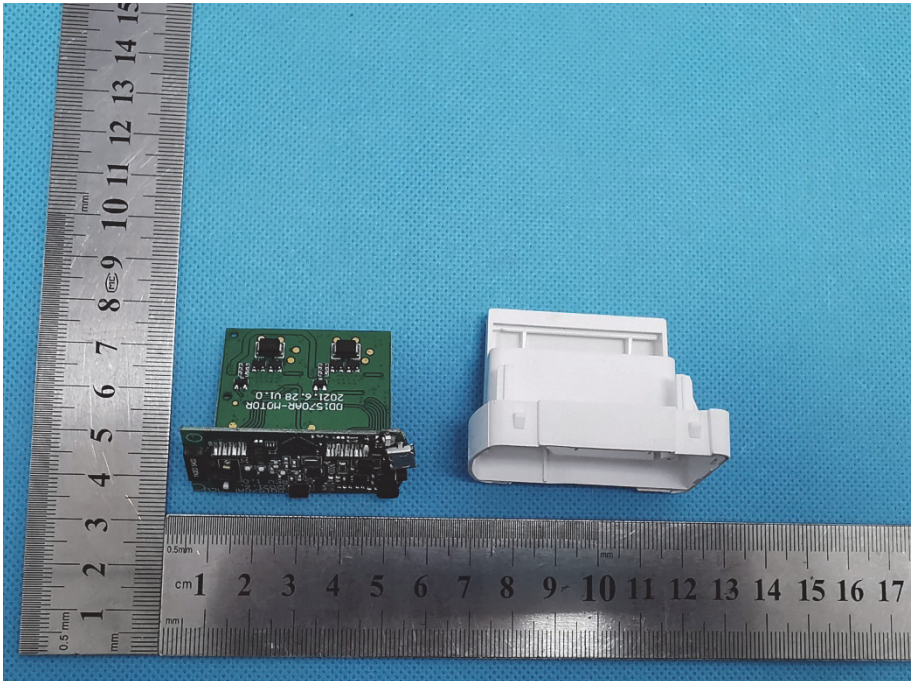

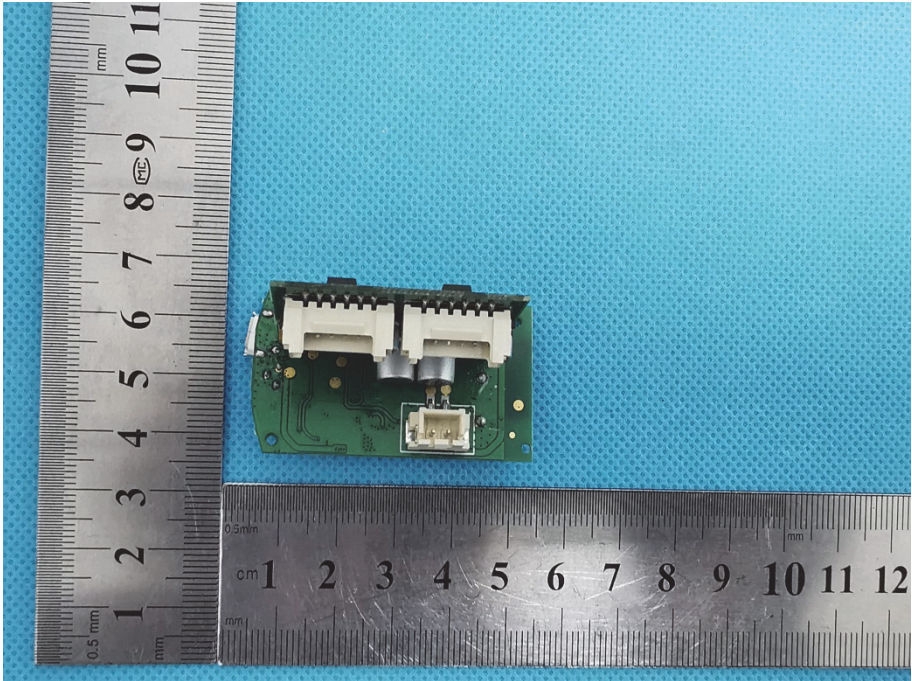

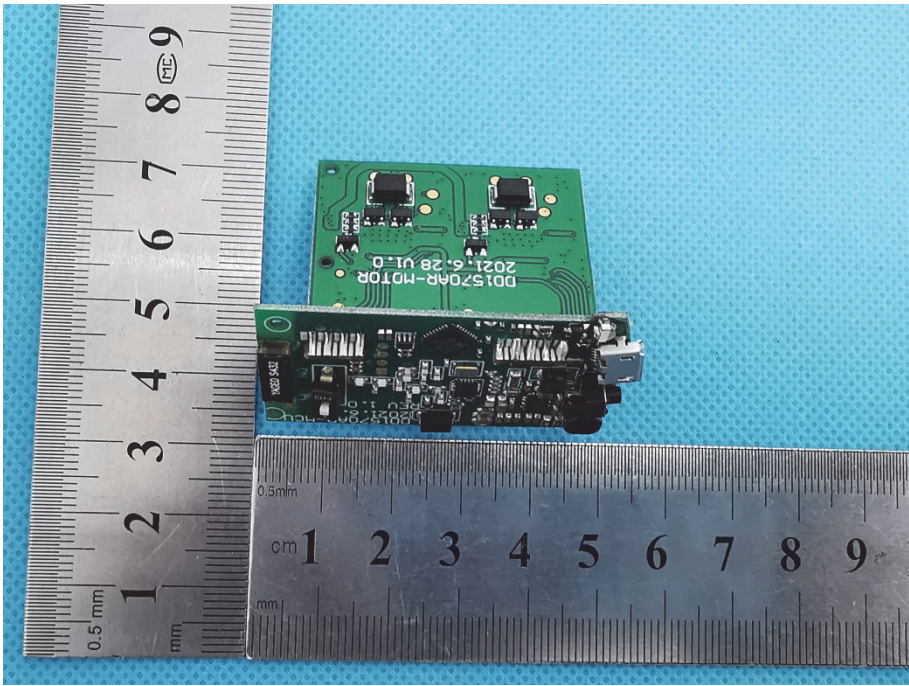

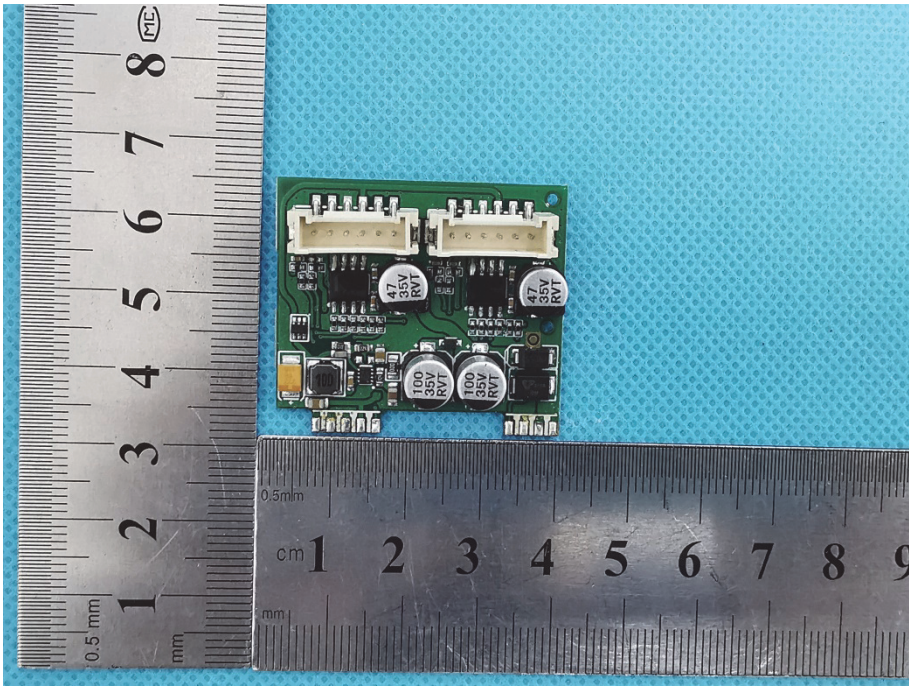

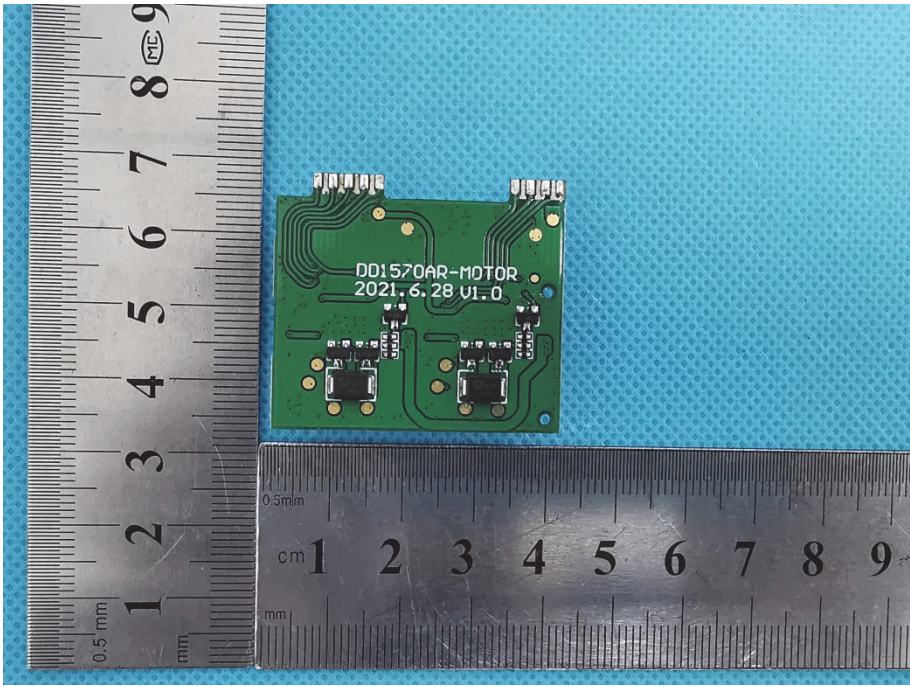

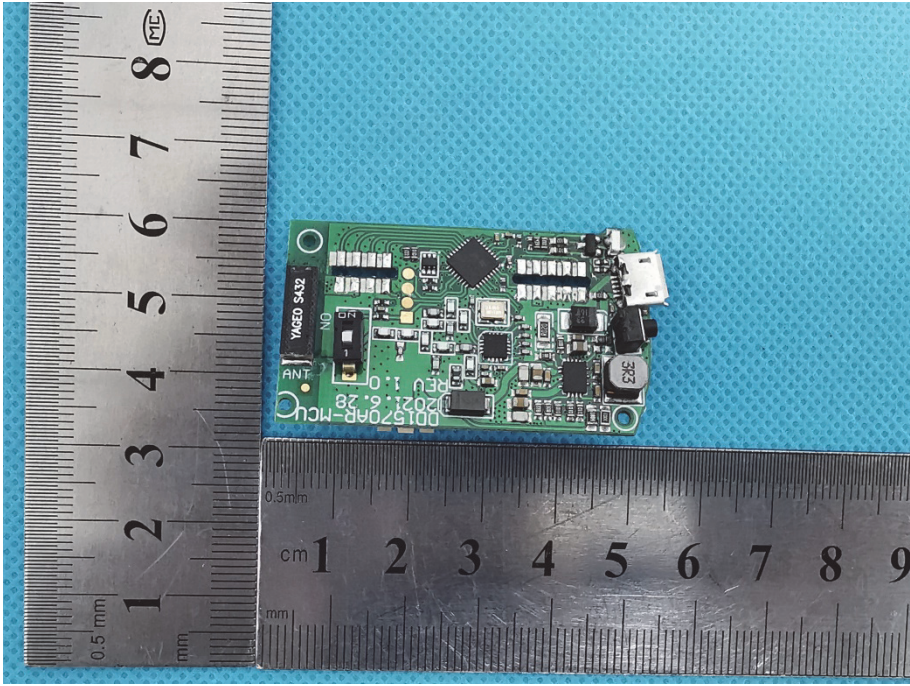

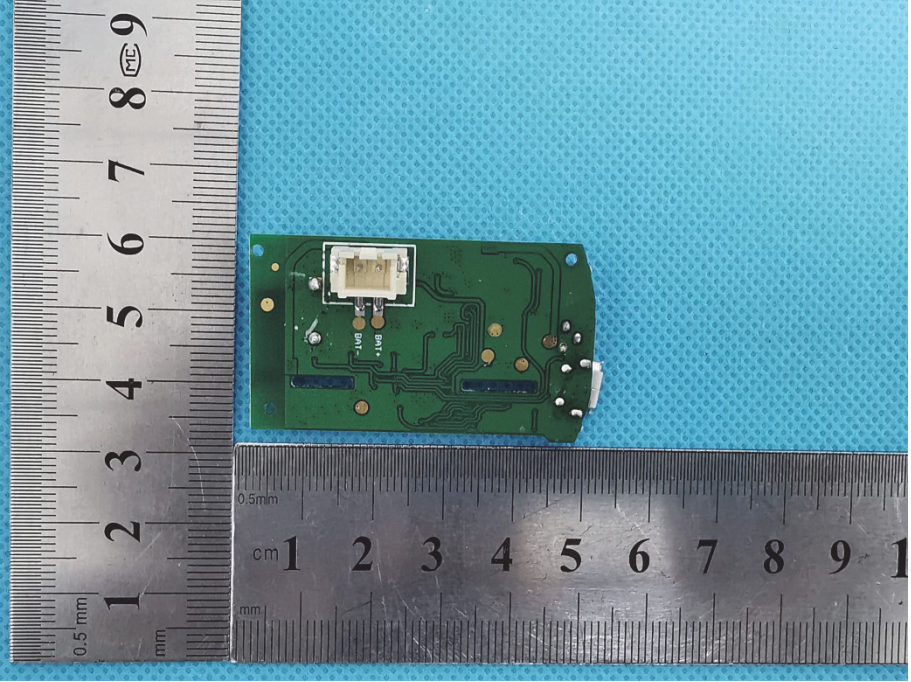

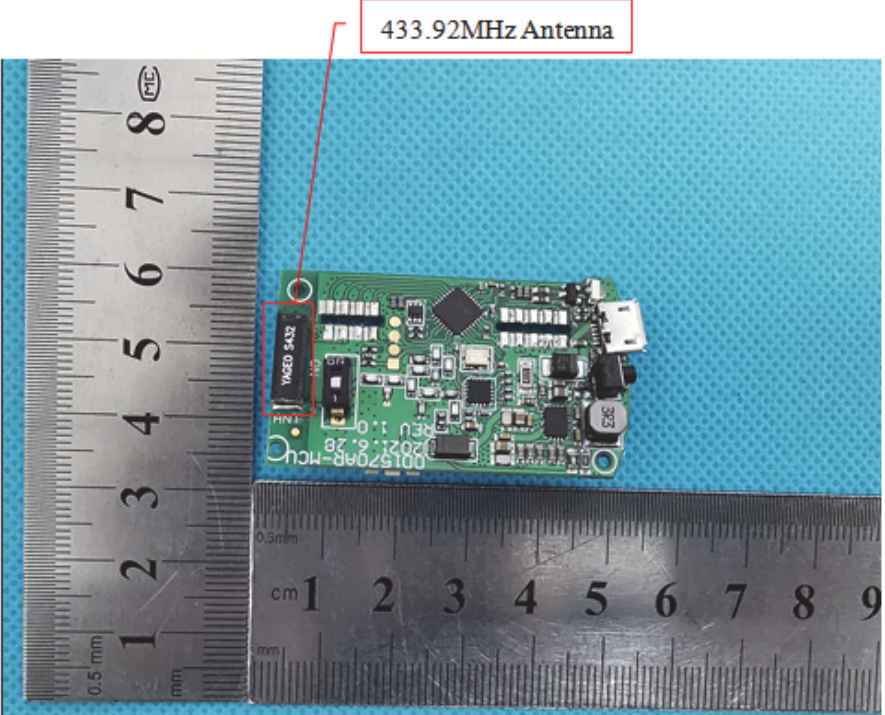

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>A photograph showing the EUT housing and board. The housing is a white plastic component on the right. The board is a green PCB on the left, with a black component mounted on it. Two rulers are placed for scale: a vertical one on the left and a horizontal one at the bottom. The board has text: 'DD1520AR-MOTOR', '2021.5.28 U1-D', and 'A A'. The background is a blue textured surface.</p>
<p>Solder Board-Component View 1</p>	 <p>A close-up photograph of the solder on the board. The board is green with a black component and a white connector. Two rulers are placed for scale: a vertical one on the left and a horizontal one at the bottom. The background is a blue textured surface.</p>

<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph showing a green printed circuit board (PCB) component with various electronic components. The board is placed on a blue textured surface. A metal ruler is positioned vertically on the left side of the board, showing centimeter and millimeter markings. The board has a white connector on the left edge and a USB connector on the right edge. Text on the board includes "DD15ZGAR-MOTOR" and "2021.6.28 U1-0".</p>
<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A photograph showing the reverse side of a green PCB component. The board is placed on a blue textured surface. A metal ruler is positioned vertically on the left side of the board, showing centimeter and millimeter markings. The board features several electrolytic capacitors with labels such as "47V 100 RVT", "35V 330 RVT", and "35V 330 RVT". There are also two white connectors on the top edge and a USB connector on the bottom edge.</p>

<p style="text-align: center;">Solder Board-Component View 4</p>	 <p>A photograph of a small green PCB component, labeled 'DD1570AR-MOTOR 2021.6.28 V1.0', placed on a blue textured surface. The component is positioned between two rulers. The ruler on the left shows centimeter and millimeter markings from 1 to 9. The ruler on the bottom shows centimeter and millimeter markings from 1 to 9, with a 0.5mm scale. The component has two sets of pins on the top edge and various surface components.</p>
<p style="text-align: center;">Solder Board-Component View 5</p>	 <p>A photograph of a larger green PCB component, labeled 'DD1570AR-MCU 2021.6.28', placed on a blue textured surface. The component is positioned between two rulers. The ruler on the left shows centimeter and millimeter markings from 1 to 9. The ruler on the bottom shows centimeter and millimeter markings from 1 to 9, with a 0.5mm scale. The component features a microcontroller, an antenna labeled 'ANT', a capacitor labeled '333', and other surface components.</p>

<p style="text-align: center;">Solder Board-Component View 6</p>	 <p>A photograph showing a small green PCB component with a white connector. The component is placed on a blue textured surface next to a metal ruler. The ruler has markings in millimeters (0.5 mm, 1 mm, 2 mm, 3 mm, 4 mm, 5 mm, 6 mm, 7 mm, 8 mm, 9 mm) and centimeters (1 cm, 2 cm, 3 cm, 4 cm, 5 cm, 6 cm, 7 cm, 8 cm, 9 cm, 10 cm). The component is approximately 2.5 cm long and 1.5 cm wide.</p>
<p style="text-align: center;">Antenna View</p>	 <p>A photograph showing a larger green PCB with various components. A red box highlights a component labeled "433.92MHz Antenna". A red line points from the text "433.92MHz Antenna" to the highlighted component. The component is a small black rectangular chip with "WQED S432" printed on it. The PCB also has other components like a microcontroller, capacitors, and a USB connector. The PCB is placed on a blue textured surface next to a metal ruler. The ruler has markings in millimeters (0.5 mm, 1 mm, 2 mm, 3 mm, 4 mm, 5 mm, 6 mm, 7 mm, 8 mm, 9 mm) and centimeters (1 cm, 2 cm, 3 cm, 4 cm, 5 cm, 6 cm, 7 cm, 8 cm, 9 cm). The PCB is approximately 5 cm long and 2.5 cm wide.</p>
