

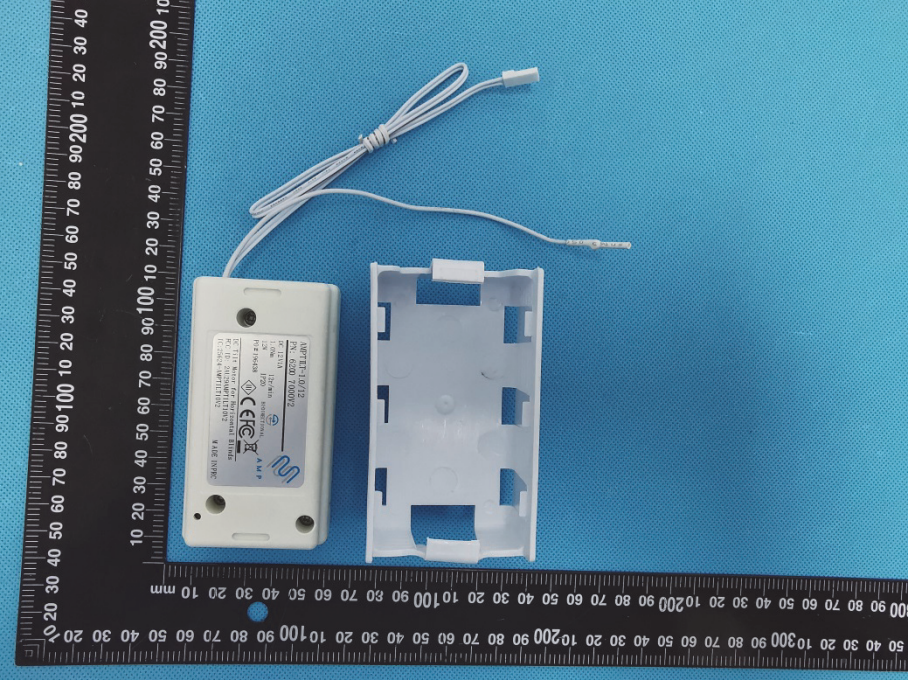

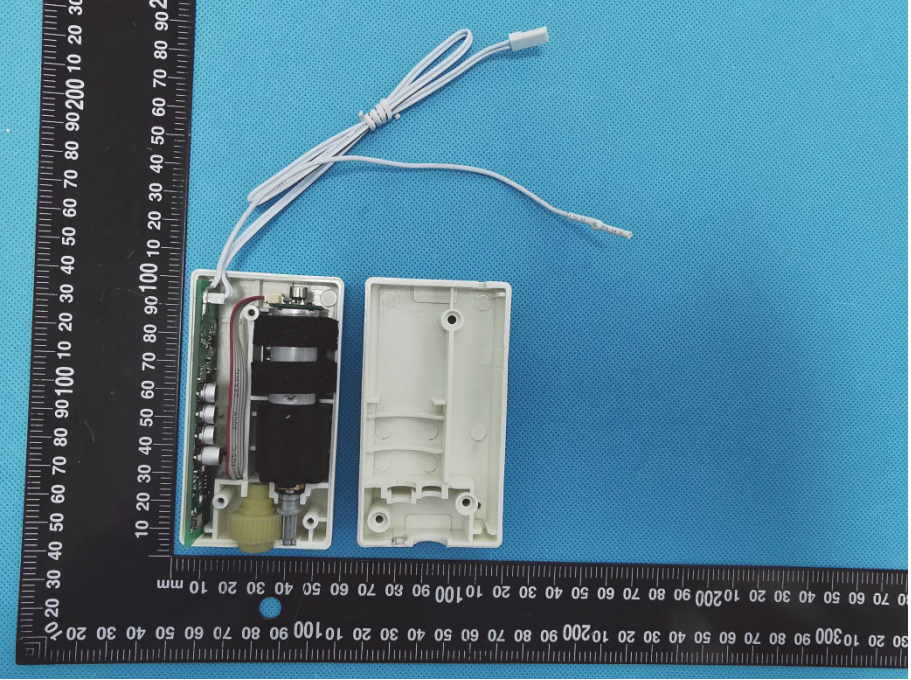

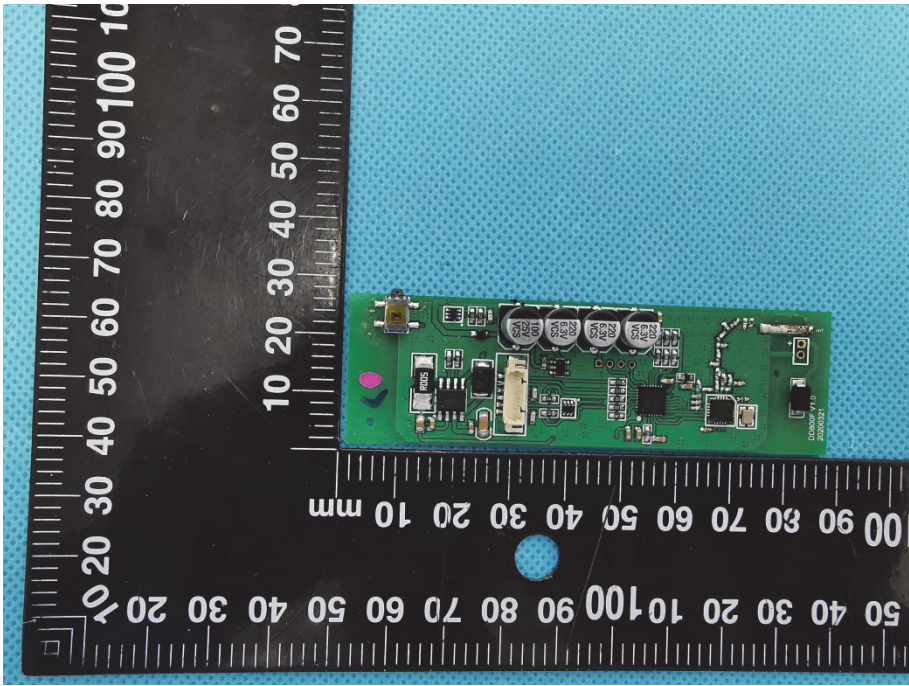

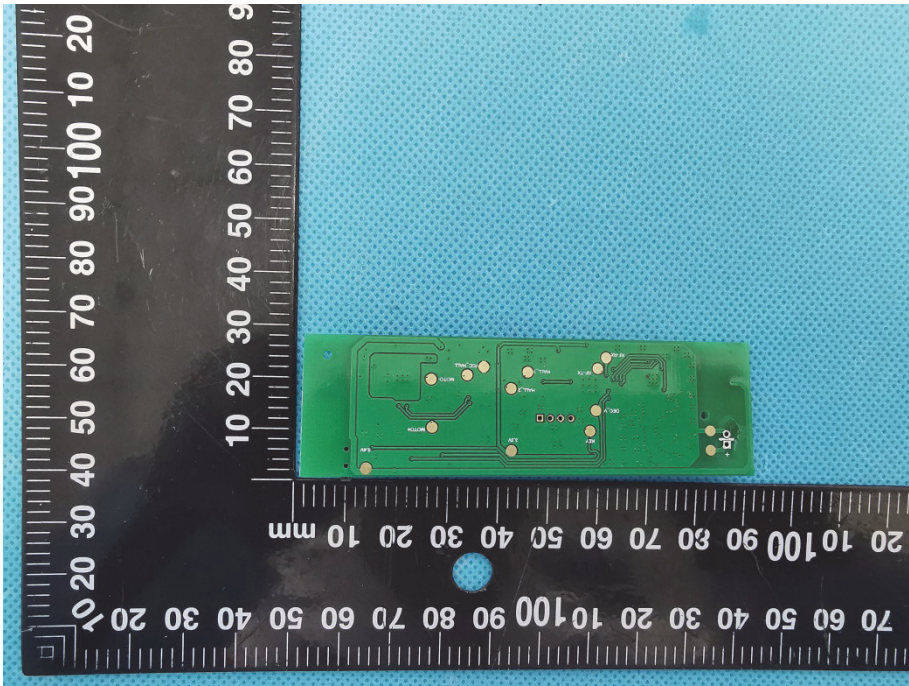

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 A photograph showing the external components of the EUT. On the left is a white plastic housing with a label that includes the CE mark and other technical specifications. To its right is a white PCB with a cable attached. A black ruler with white markings is placed below the components for scale.
<p>EUT Housing and Board View 2</p>	 A photograph showing the internal components of the EUT housing. The housing is open, revealing a motor, a PCB with various electronic components, and a cable. A black ruler with white markings is placed below the components for scale.

<p style="text-align: center;">Solder Board-Component View 1</p>	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The board is populated with various electronic components, including several integrated circuits, resistors, and capacitors. A black ruler with white markings is placed to the left of the board for scale, showing measurements in millimeters. The board is set against a blue background with a fine grid pattern.
<p style="text-align: center;">Solder Board-Component View 2</p>	 A photograph of the same green PCB component, labeled 'Solder Board-Component View 2'. This view shows the reverse side of the board, which is populated with various electronic components, including several integrated circuits, resistors, and capacitors. A black ruler with white markings is placed to the left of the board for scale, showing measurements in millimeters. The board is set against a blue background with a fine grid pattern.
