

NOTIFAI

Hub

Model: ELT-100004

INSTRUCTION MANUAL

The NotifAi ELT-100004 is designed for professional installation by NotifAi trained installation engineers. Please refer to this instruction manual for important limitations of use and disposal information.

Introduction

The ELT-100004 Hub is designed for indoor use, to be used as part of the Ell-iot cloud sensor platform. The Ell-iot dashboard will provide notifications of abnormal sensor readings and battery low warnings.

The hub has internal sensors that will provide the following information to the Ell-iot cloud sensor platform

Temperature

Humidity

Pressure

Differential Pressure

Moisture Level (Use External Sensor Cable)

With optional AQ board

CO2

VOC

PM2.5, PM10

Usage Limits

Indoor use only

Operating Temperature range : -10 to 60C

Operating Humidity : 0-90% non condensing.

There are no user service parts inside.

Use power supplies provided by ell-iot inc only.

Installation Instructions

Installation by Ell-iot trained engineers only.

The hub can be table or wall mounted. Use the supplied bracket to wall mount

Operating Instructions

Installation by Ell-iot trained engineers only.

FCC Compliance Statement

for Model No. ELT-100005

This Statement is part of the User Manual

Caution: This marking indicates that the user should read all included documentation before use. Retain this supplement for future reference

Users of this product are cautioned to use accessories and peripherals approved by Ell-iot Inc.. The use of accessories other than those recommended, or changes to this product that are not approved by El-iot INC, may void the compliance of this product and may result in the loss of the user's authority to operate the equipment.

Caution: For use with ELT-100004 Receiver Hub only. See battery instructions. No user-serviceable parts.

For Indoor Use only

Radiation Exposure Statement

Warning:

The device has been evaluated to meet general RF exposure requirement. To maintain compliance with FCC's RF exposure guidelines, the distance must be at least 20 cm between the radiator and your body, and fully supported by the operating and installation configurations of the transmitter and its antenna(s).

U.S.A. Digital Emissions Compliance

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. such modifications could void the user's authority to operate the equipment.

CE Compliance Statement

Caution: This marking indicates that the user should read all included documentation before use. Retain this supplement for future reference

Users of this product are cautioned to use accessories and peripherals approved Ell-iot Inc. The use of accessories other than those recommended, or changes to this product that are not approved by Ell-iot Inc, may void the compliance of this product and may result in the loss of the user's authority to operate the equipment.

Indoor Use Only

Radiation Exposure Statement

Warning: This equipment complies with International Commission on Non-Ionizing Radiation Protection (ICNIRP), IEEE C95.1, Federal Communications Commission Office of Engineering and Technology (OET) Bulletin 65, Canada RSS-102, and European Committee for Electrotechnical Standardization (CENELEC) limits for exposure to radio frequency (RF) radiation.

EU – R&TTE Declaration

Ell-iot Inc declares that this device is in accordance with the essential requirements and other provisions of R&TTE Directive (1995/5/EC).

This product is marked with this logo and uses radio frequency bands that are not harmonized throughout the European Union and other countries as noted in the table below.

This equipment may be operated in the following countries without restriction:

AT, BE, CY, CZ, DK, EE, FI, DE, GR, HU, IE, IT, LV, LT, LU, MT, NL, PL, PT, SK, SI, ES, SE, GB, IS, LI, CH, BG, RO, TR
