请保持镜腿所有开孔干燥,避免有液体溅入。
Please keep all openings in the legs dry to avoid liquid splashing.
液体分解散 しないように、テンプルのすべての開口部を乾燥した状態に保つようにしてください。

- 如长时间未使用,请3个月充满电量一次。 lf not used for a long time, please fully charge every 3 months. 長期間使用しない場合、3か月に1度を目安に充電してください。
- 请勿佩戴本产品置于水中(淋雨,潜水)。 Do not wear this product and place it in water (in the rain, diving). 本製品を着用したまま水(雨、潜水など)に入れないでください。

FCC Compliance Notice

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help. FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment . This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. So the stand - alone SAR evaluation is not necessary.
