Bluetooth connection

1. Turn on the Bluetooth function of mobile devices (mobile phones, computers, etc.) and search for *Carnival Fun By NCS*.
2. The Bluetooth mode will be entered by default when starting up the ship. The ship will sound a prompt tone and the status indicator will flash slowly.
3. Click manually, the speaker will be automatically paired and connected, and a prompt tone will be heard when the connection is successful. (In general, you do not need to enter a password; in some instances, you will be prompted to enter a password, please enter "0000")
4. Speaker that has been successfully paired will be connected automatically next time is turned ON.

Technical specifications

Power Output	5W (RMS)
Frequency Response	90Hz - 15KHz
Driver Unit	45mm
Distortion	<0.2% @ 1KHz / 1.0W
Separation	≥80 dB @ 1KHz 1.0W
Input Impedance	≥15K ohm
Size	285 x 100 x 162 (mm)
Bluetooth Ver.	X

Designed Exclusively for:

Carnival®

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
