二、Illustration: (mm)

The illustration includes a top-down view of the toroidal core with dimensions A, B, C, D, E, F, and G. A cross-sectional view shows the core layers: 线圈 (coil), 磁芯 (core), PET绝缘 (PET insulation), 铁氧体 (ferrite), 双面胶层 (double-sided adhesive layer), and 薄型纸 (thin paper). Two photographs show the physical components: one labeled 'OK品' (OK product) and one labeled 'NG品' (NG product). A red circle highlights a defect in the winding, and a red arrow indicates a 15max gap.
