If you still have problems with the above procedures, please contact our Customer Service Representatives directly for further assistance.

Product Parameters

Brand	bebird
Product Name	Smart Ear Cleaner
Model	M9 S
Network standard	IEEE 802.11b/g/n
Antenna	Internal FPC antenna
Working frequency	2.4Ghz
Image transmission rate	20fps
Image sensor	CMOS
Working temperature	-10 ~ 50°C
Battery	230mAh Lithium battery
Battery life	about 90 minutes
Charging time	about 60 minutes
Input Parameters	5V --- 0.5A
Lens diameter	3.5mm
Optimum focal length	13.5mm
Pixel	10 Mega-pixels
Gyroscope	Gimbaled Intelligent Gyroscope

Attention

- When cleaning the lens, wipe it carefully with an alcohol cotton swab.
- Do not use the device while you are moving. Use in a safe place to avoid being bumped by others.
- This product is unsuitable for children under the age of 3.
- Children should not use this device unsupervised by an adult, to avoid accidental harm.
- Do not drop or submerge the device in liquid, to avoid damage.
- This product has a built-in lithium battery. If not used frequently, it is recommended to charge the battery once a month.
- Do not expose the device to direct sunshine. Also keep the accessories out of direct sunshine to avoid softening.
- During use, the device may warm up slightly (up to 35 degrees). This is normal and you can continue to use the device.
- When using the device on a child, for the best experience, keep the child in a sitting position and use the device horizontally.

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
