

Q3认证英文说明书20230103V1.0

尺寸：63x156mm

材质：105g+哑粉哑油

工艺：风琴折

印刷：连线哑油，双面四色

XLIFE
Suitable for all family

1
Download the APP

iOS: Search "Xlife" in App Store
Android: Search "Xlife" in Google Play

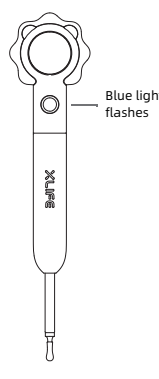

OR scan the QR code to download the app

⚠ Note: Do not use the charging equipment with output voltage exceeding 5V

2 **3**

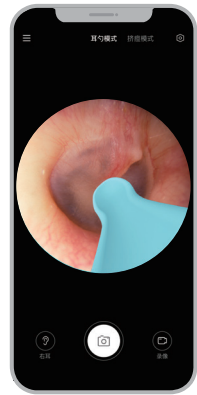

Open APP Press and hold the power
Click Q3 button to turn on the ear
 cleaning rod

Connect Product Wi-Fi

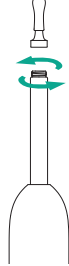

1 **2**

Connect Product Wi-Fi Back to Xlife app
"xlife-Q3-XXXXXX" start to use it

Accessory replacement

Please check that the ear tip is tight before using it.

The ear tip has its own thread and can be unscrewed clockwise for replacement.

For a better user experience, we recommend replacing the ear tip at least every 3 months. (This can be adjusted according to the frequency of use.)

Troubleshooting

Problem	Solution
No response after startup	Please use the incidental charging cable to charge. The charging time is 45mins
The app exits quickly	Delete the existing app and scan QR to reinstall it
Feel tricky with replacing ear tips	Align the replacement ear tip to camera and tighten clockwise
Indicator light flashes	Please use the incidental charging cable to charge. The charging time is 45mins
Abnormal display in app	Interrupt the connection, restart the product to connect again

If you still have problems with the above procedures, please contact our Customer Service Representatives directly for further assistance

Hazardous substance

Part name	Hazardous material					
	(Pb)	(Hg)	(Cd)	(Cr(VI))	(PBB)	(PBDE)
Printed Circuit Components	x	o	o	o	o	o
Case	o	o	o	o	o	o
Plastic rubber accessory	o	o	o	o	o	o

This form is formulated in accordance with SJ/T 11364
o : represent the hazardous material ratio is below GB/T26572-2011
x : represent the hazardous material ratio is over GB/T26572-2011

Product parameters

Brand	Xlife
Product Name	Smart Visual Ear-Clean Rod
Model	Q3
Pixels	3 Mega-pixels
Lens diameter	3.5mm
Image transmission rate	20fps
Battery	130mAh
Battery life	45 minutes
Charging time	45 minutes
Input current	5V — 0.5A
Gyroscope	3-axis
Network standard	IEEE 802.11b/g/n
Working temperature	-10- 45°C
Rod weight	25g
Image sensor	CMOS

Attention

- When cleaning lens, please wipe it carefully with professional alcohol cotton swabs.
- Please observe your surroundings before use. Stay at least 2ft away from people, animals, or moving objects when using. Don't use in a moving vehicle or other unstable environments. Please don't move around when using.
- This product is unsuitable for children under 3 years old.
- This product is not suitable for children to use alone.
- Do not place in a humid environment for a long time or soak in liquids.
- There is a built-in rechargeable lithium-ion battery. Even if you do not use it, you should charge it once a month to avoid long-term battery damage.
- Please use a 5V charger to charge the device. Do not use this product while being charged.
- Avoid direct exposure to the sun.
- Do not put heavy objects on the product.
- It is normal for the temperature to rise slightly when using (up to 95°F).

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
