Mag-Modular 3in1 wireless charging Model No.:WC-008

Included:

3IN1 Mga-Modular Compatible Charger
USB Type-C Cable

Instruction:

- 1.Plug the USB-C Cable to the wireless charger
- 2.Plug the USB-C Cable to the 25W AC charger
- 3.Place your device on its charging zone to start use

Technical

Size:65.5*75*75mm
N.W: 368g

Power Input:	DC 5V/2A 9V/2A 12V1.67A 20W
Output:	2.5W/5W/7.5W/10W/15W
Connector	USB-C
Charging Distance	<8MM
Conversion efficiency:	≥70%
LED Light	Mobile Phone: Green/Earphone: Blue/Watch: White Full Charging/FOD/Over voltage, under voltage and over temperature protection : Red
Required Charger	AC Charger USB-C PD25W
Please user only included cable for charging pad	

Exposure to Radio Frequency Energy

The radiated output power of the wireless charger meets applicable radio frequency exposure limits. The wireless charger should be operated with a minimum separation distances of 20cm(8 inches) between the MagSafe wireless charger, or any devices on the wireless charger, and a person's body.

Warning

When using the wireless charger, remove metallic cases and avoid placing metallic foreign objects in it (for example, keys, coins, batteries, or jewellery), as they may interfere with charging or become warm enough to cause discomfort or injury if your skin comes into contact with them.

Don't place any item with an RFID tag (for example, a contactless credit card, passport, or access card) on the MagSafe wireless charger, because the RFID tag could be damaged.

IMPORTANT NOTICE

In order to guarantee the proper functioning of the product and its charging potential, a 25W USB-C mains charger (not supplied) is required. The use of a charger with different specifications could degrade the product, your device or not provide the adequate power for its proper functioning.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
