Please contact us if you have any questions,
and we will get back to you within 24 hours.
Email: best@tianhualighting.com
Please attach your Order ID so that we can serve you better.

Caution

1. Before assembly, place all parts out on a clean flat surface and inspect each part for defects that may have occurred during shipping.
2. Inspect wire insulation for any cuts, abrasions or exposed copper that may have resulted during shipping. If there are any defects in the wire, DO NOT continue assembly. Please send an email to our Customer Service immediately (best@tianhualighting.com).
3. Consult a qualified electrician if you have any electrical questions.
4. Never drape clothes over the lamp.
5. To reduce the likelihood of tipping over, we recommend placing the lamp behind furniture and keep children and pets away.
6. To prevent children from suffocating and choking, keep them away from packing materials.

Operation

Connect the supplied DC power adapter to the corresponding input in the rear of the lamp base.

Operation-Wireless Charging

Note:Phone must have wireless charging capability.

Place your phone onto the charging pad and charging will start automatically.

The phone does not need to be Wifi or Bluetooth to charge.

The wireless charging indicator will blink white when charging and turn solid white when fully charged.if a connection error occurs, the light will turn Solid red.

Note:

- . If charging does not begin,try adjusting the phone so its receiver can be detected.
- .Different model phones have receivers in different areas of the phone, Align the center of your phone with the Qi logo to achieve the fastest charging.

Caution:

- .Use the supplied DC power adapter only.
- .Do not dismantle the product by yourself,always ask a professional electrician or authorized technician for repair assistance.
- .If you smell a bad odor or anything unusual,turn off the unit immediately.
- .Do not remove the power plug with wet hands as it may cause electrical shock. Keep away form children.
- .Do not put this unit near extreme heat sources,moisture,or corrosives substances.
- .Regularly clean the lamp with damp cloth.
- .Store in dry and cool place if not using for an extended period of time.

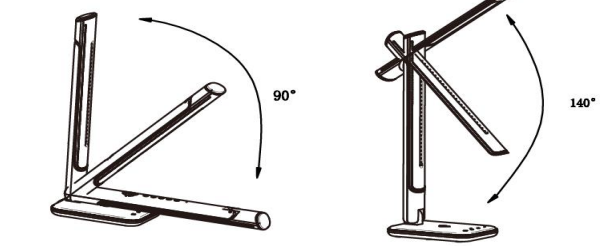

Note: Charging with a phone case, especially a thick one, may cause the phone to not charge. The LED indicator will flash red if the phone is placed incorrectly or if the case is too thick and will not charge.
