USER TERM STREAM MP3 PLAYER

HOW TO CHARGE

- Plug the included USB cord in the headphone jack of the H2O Stream to either a computer or a USB wall adapter
- The light will be Solid Red while charging, and turn Solid Blue when fully charged (it takes about 3 hours to fully charge).
- Your H2O Stream has a battery life of 8-10 hours (depending on use).

HOW TO ADD CONTENT (PC)

- Connect the H2O Stream to your computer with the included USB cord.
- The computer will recognize the H2O Stream as a new drive.
- Find the music you would like to copy to your H2O Stream, right-click the music, hover over "Send to", then click "H2O STREAM".
- When finished "Eject" the H2O Stream by double clicking it in the System Tray.

HOW TO ADD CONTENT (MAC)

- Connect the H2O Stream to your computer with the included USB cord.
- Your Mac will recognize your H2O Stream as a drive which will appear on your desktop. Or, open the Finder and "H2O STREAM" will appear under "Devices"
- Open a new Finder window and find the music you would like to copy
- Drag and drop the music onto the H2O Stream icon on your desktop
- When finished "Eject" the H2O Stream by dragging the icon to the "Trash"
- The STREAM player is able to play .m4a without the need to convert to .mp3

BLUETOOTH PLAY

UNIT OPERATION / BLUETOOTH PLAY

The H2O STREAM can receive Bluetooth music from your smartphone and play it. You will need to pair your STREAM with your smartphone to enable this feature.

To Pair STREAM with Smartphone:

- Press Bluetooth button to switch the device from 'Play from Memory' mode to 'Bluetooth Play'. You should hear "Bluetooth Play".
- To enter into Pairing Mode, hold the Bluetooth button until you hear the voice "Bluetooth Pairing Mode". You should then see the H2O STREAM device appear in your phone Bluetooth settings. Select the device to connect. The pairing is only needed once. Your smartphone should remember your setting the next time you power on your H2O Stream.
- Turn on the music on your smartphone and select Bluetooth function. Make sure the H2O Stream is ON and you have selected "Bluetooth Play" mode.

Federal Communications Commission (FCC) Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by Finnovate Group, LLC may void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment
