#### Safety Precautions

1. The sensor range of the product may be affected by clothing and ambient light.
2. When charging, please use an adapter with a rated output, 5V=2A; an inappropriate adapter may cause product damage.
3. During the use of the product, if the light wobbles or becomes obviously abnormal, please try to charge it ASAP; if the abnormal phenomenon does not improve after charging, please stop using immediately.
4. Please do not use it in unstable places(such as easy to fall or easy to dump places).
5. It is strictly forbidden to put the product close to or throw it into a fire source to avoid the risk of fire and explosion.
6. Please do not use it in the bathroom or in any other wet conditions; this product is not specially waterproof.
7. The correct way of battery disposal: Do not disassemble, bump, squeeze or throw it into fire; if there is serious expansion, do not continue to use; do not place it in a high temperature environment.

**FCC Warning:**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
