Specifications

Size: 67*33*8.7mm

Weight: 18g

Material: ABS + Metal

Input: 5V/500mA 5V/1000mA

Output: 3W (Max)

Input interface: USB-C + USB-A

Compatibility: Apple Watch Series

Warning

1. Do not dismantle or modify the product
2. Do not store product in wet conditions
3. Do not let water inside part of the product's interface, this would cause harm to the charger
4. While charging, the charger may heat up. This is normal and should not affect the charger's performance. If the charger feels hot to touch during the charging process, remove the device from the charger and allow it to cool down before restarting the charging process.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
