感谢您选择SelfieCom-Alpha产品！

请在第一次使用前仔细阅读本说明书，如果您在使用过程中有任何问题，欢迎随时联系我们售后部门，我们将尽快解决您的问题。

按键功能
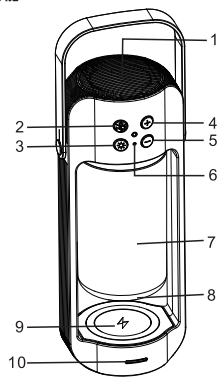

1.喇叭
2.开关机/播放暂停/接听挂断
3.LED灯开关
4.音量+/上一曲
5.音量+/下一曲
6.麦克风
7.火焰/照明灯
8.低音振膜
9.无线充
10.无线充指示灯
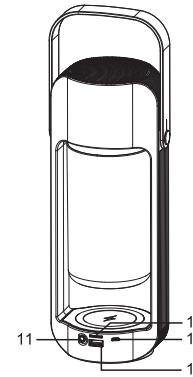

11.AUX IN插口
12.TF卡插口
13.充电口
14.USB 插口

使用说明

1.蓝牙音箱使用
长按电源键3秒开机，进入蓝牙匹配状态（按键灯闪烁），打开手机搜索蓝牙名"SelfieCom-Alpha"，点击匹配连接，连接成功后（按键灯常亮）即可播放音乐。

2.对耳系统连接
任意2台Alpha设备，可以同时开机（或者在其中一台开机状态下，开启另一台设备），大约5秒钟后，2台设备可以自动配对连接形成同步，达到左右声道效果。蓝牙搜索连接只会显示一个名字，此时操作任意一台设备，音乐播放，音量调节，上下曲切换都是同步的。

3.无线充功能
使用产品自带的2A数据线，配合9V充头（不包含），可以使用10W无线快冲功能（如果是苹果手机只能达到7.5W，这是苹果系统限制充电功率，并非产品质量问题）。
⚠ 产品本身电池不会直接供给无线充电板，必需连接外部电源以启用无线充功能！

如果充头不是9V规格的或者数据线并非产品自带的，有可能影响无线充电功率只能达到5W功率。

4.火焰灯及照明灯
按击控制面板的灯泡按键，可以切换灯光模式，火焰灯>照明灯>灭灯，适用于不同场景。

5.TF卡与USB 音乐播放
产品支持TF卡与U盘即插即播，而且优先级高于蓝牙播放。即如果设备检测到有TF卡或者U盘插入，蓝牙会自动关闭。直到TF卡或U盘拔出，再次开启蓝牙搜索。

6.应急充电宝
产品支持紧急时刻可以给手机提供应急充电。通过USB端口输出0.5A电流，紧急时刻可以保持手机不断电。

7.AUX IN
产品支持aux in，通过3.5mm音频线可以连接电脑或者笔记本作为外置音箱使用。

ALPHA
PORTABLE WIRELESS SPEAKER
### FLAME LED PLUS WIRELESS CHARGER

User Manual

Thank you for choosing SelfieCom-Alpha!

Please read this manual before first usage. If you have any issues while using our product, feel free to contact us for after sale service. We will take care of your issue as soon as possible.

7.Flame lamp
8.Bass
9.Wireless Charger
10.Indicator
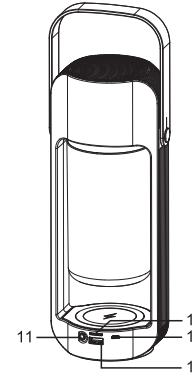

11. AUX IN
12. TF card slot
13. charging port
14. USB slot

How to Use it

1. Bluetooth speaker
Long press the power button to turn device on and start pairing(LED indicator flashes), search and pair with "SelfieCom-Alpha" on your cellphone, LED indicator stops flashing once successfully connected.

2. TWS system
Either 2 sets of Alpha can be paired with each other. You can turn on both devices at the same time(or turn on another device while one is in working status), it takes about 5 seconds for two devices to pair with each other and play stereo sounds. Under this status, Bluetooth pairing list shows only one name, and music playing, volume control, switching songs were all synchronized.

3. Wireless charging function
Use the 2A charging cable (included in package) and a 9V charging adaptor (not included), you can charge your cellphone (Qi standard) with 10W power wirelessly by placing your phone on the wireless charger pad under the lamp.
If you are using an iPhone, the max power is 7.5W only. (iOS limited, not quality issue)

⚠ The wireless charger pad will work only when powered by external power source. It will not generate power source from inner battery.

4. Flame & Night lamp LED
You can switch the LED modes by pressing the bulb button on the control panel, Flame>night lamp>light off, suitable with different occasions.

5. TF cards & U-Disks music play
This device supports plug-play for TF cards & U-disks if you saved some songs in them. And Wireless function will auto disconnected when TF cards/U-disks were detected plugged in.
Wireless function will active again only when TF cards/U-disks were removed.

6. Emergency power bank
This device can be used as an emergency power bank. Through the USB port, it generates 0.5mah currency output to ensure your phones battery not dead.

7. AUX IN
You can connect Alpha to your desktop computer or laptop via 3.5mm audio cable to make it work as a normal speaker
