### Troubleshooting

#### Heart-rate signal missing

The ARG-WT-6070 smart watch keeps paying attention to your heart rate data during your exercise and your daily life. Sometimes the watch may not get a suitable heart rate signal. At this time, the missing heart rate data will appear at the dotted line.  
 If you can't get the heart rate signal, first you should confirm that you wear the watch correctly, adjust it to avoid being too high or too low, neither too tight nor too loose on your wrist. After adjustment, turn on real-time heart rate monitoring to get the data.  
 If there is still no heart rate data, check if the heart rate monitoring function is turned on at SMART-TIME PRO APP.

#### Other problems

If your mobile cannot pair the watch, click Settings Bluetooth in your mobile and check if there is signal of ARG-WT-6070. If yes, it means there is no problem with the Bluetooth signal. Please check if the watch is paired with other phones, please unbind it. IOS device users should click Setting - Bluetooth - ignore this device and then pair it.

### FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:  
 (1) This device may not cause harmful interference, and  
 (2) This device must accept any interference received, including interference that may cause undesired operation.  
 The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
