

User Guide (English)
Dance of Light Wireless Charging Bluetooth
Speaker Lamp

Introduce

We seek the light, we see the light, and we feel the light. When light reflects in a room, it dances in the air, changing into different forms on a mirror; giving everything it illuminates a steady stream of energy.

We endow this energy to wireless music, wireless charging and stepless dimming functions with the latest high technology, presenting the Dance of Light in front of you.

Let's dance with the light.

Packaging Contents Specification

Dance of Light x1	Model Name:Dance of Light	BT Version:V5.0
Charging Adaptor x1	Wireless Charging:10W*2	BT Chipset:Mountain BP1048
User Guide x1	Output Voltage:9V*2	BT Frequency:2.4GHZ
	Max Potput Current:1.1A*2	BT Profile:A2DP,AVRCP
	Conversion Rate:70%-75%	Input power:12V 4A
		Speaker power:5W*2(Type N1)
		15W*2 (Type N2)
		Resistance: 4Ω

Working Conditions

Indoor use only

Temperature: -10°C ~40°C/-40°F ~ 104°F

Humidity: 40% ~60%

Precautions

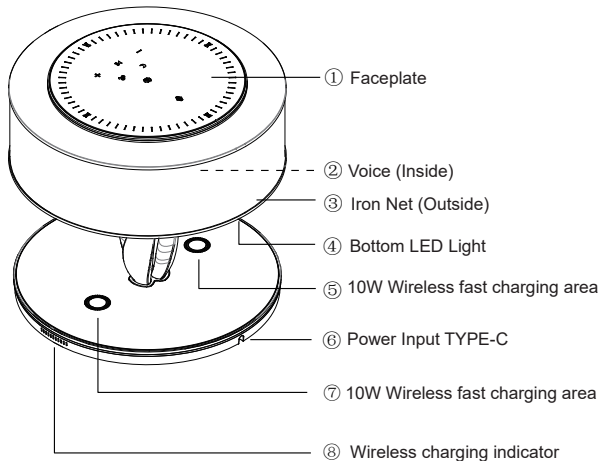

Please read the user guide before usage. Improper operation may cause direct/potential damage to this product.

1. Do not disassemble the product or attempt to fix it;

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

For BT:

To maintain compliance with FCC 's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.

For WPT:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.
