

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

**Conducted Emission
Test Setup**

**Radiation Emission Test
Setup (Below 30MHz)**

<p>Radiation Emission Test Setup (30MHz to 1GHz)</p>	<p>A photograph showing a radiation emission test setup for the 30MHz to 1GHz range. A yellow metal test chamber is positioned in the center of an anechoic chamber, surrounded by white pyramidal absorbers. A black antenna probe is mounted on top of the chamber. To the right, a metal structure with several vertical rods is visible.</p>
<p>Radiation Emission Test Setup (1GHz to 18GHz)</p>	<p>A photograph showing a radiation emission test setup for the 1GHz to 18GHz range. A yellow metal test chamber is positioned in the center of an anechoic chamber, surrounded by white pyramidal absorbers. A red antenna probe is visible on the right side of the chamber. The floor of the chamber has a blue and black patterned border.</p>

**Radiation Emission Test
Setup (Above 18GHz)**
