

<p>Solder Board-Component View 3</p>	 <p>A photograph of a green printed circuit board (PCB) component, labeled '3', showing its soldered side. The component is rectangular with a white connector on the right side. It is placed on a black surface with a white ruler for scale. The ruler shows markings from 0 to 100 mm. The component is positioned against the 10 mm mark on the ruler. The background is a blue textured fabric.</p>
<p>Solder Board-Component View 4</p>	 <p>A photograph of a green printed circuit board (PCB) component, labeled '4', showing its soldered side. The component is rectangular with a white connector on the right side. It is placed on a black surface with a white ruler for scale. The ruler shows markings from 0 to 100 mm. The component is positioned against the 10 mm mark on the ruler. The background is a blue textured fabric.</p>

<p style="text-align: center;">Solder Board-Component View 5</p>	 <p>A photograph of a green printed circuit board (PCB) component, labeled '5', positioned on a blue textured surface. The component is rectangular with a central square area containing a complex pattern of conductive traces. Two small circular solder pads are visible on the left side. A black ruler with white markings is placed below the component, showing measurements in millimeters. The ruler is oriented vertically on the left and horizontally at the bottom. The vertical scale ranges from 0 to 100 mm, and the horizontal scale ranges from 0 to 100 mm.</p>
<p style="text-align: center;">Solder Board-Component View 6</p>	 <p>A photograph of a green printed circuit board (PCB) component, labeled '6', positioned on a blue textured surface. The component is rectangular and features a central square area with a complex pattern of conductive traces. It includes a gold-plated connector on the left side and a circular solder pad on the right side. A black ruler with white markings is placed below the component, showing measurements in millimeters. The ruler is oriented vertically on the left and horizontally at the bottom. The vertical scale ranges from 0 to 100 mm, and the horizontal scale ranges from 0 to 100 mm.</p>
