<p style="text-align: center;">Solder Board-Component View 8</p>	

<p style="text-align: center;">Solder Board-Component View 9</p>	 <p>A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 9'. The board is rectangular and features a yellow connector on the left side. It is populated with various electronic components, including a large black integrated circuit (IC) with 'TRION' branding. The board is placed on a blue textured surface. A black ruler with white markings is positioned to the left and bottom of the board, showing measurements in millimeters. The vertical ruler on the left ranges from 0 to 60 mm, and the horizontal ruler at the bottom ranges from 0 to 70 mm.</p>
<p style="text-align: center;">Solder Board-Component View 10</p>	 <p>A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 10'. The board is rectangular and densely populated with various electronic components, including several integrated circuits and surface-mount components. It is placed on a blue textured surface. A black ruler with white markings is positioned to the left and bottom of the board, showing measurements in millimeters. The vertical ruler on the left ranges from 0 to 100 mm, and the horizontal ruler at the bottom ranges from 0 to 70 mm.</p>

<p>Antenna View</p>	<p>WIFI Antenna</p>  <p>The image shows the back cover of a mobile phone with the antenna area highlighted. A red box labeled "WIFI Antenna" points to a small component on the right side of the top edge. The back cover has a silver metal finish with some text: "10-083168 HX" near the top right, and "J080QH221X XD-1M" and "XX801-21C2 201015" in the center. There are also two blue circular components and a black oval component near the top edge.</p>
<p>Antenna View</p>	<p>NFC Antenna</p>  <p>The image shows a close-up of the NFC antenna component, which is a green printed circuit board (PCB) with a rectangular loop antenna structure. A red box labeled "NFC Antenna" points to the loop structure. The PCB has some markings and a small component on the left side.</p>
