

<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A photograph of a green printed circuit board (PCB) component, labeled 'UNIBU1-1009-1C10', placed on a blue textured surface. The component features a prominent circular copper pad. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters. The ruler is oriented with 0 mm at the top and 100 mm at the bottom.</p>
<p style="text-align: center;">Solder Board-Component View 4</p>	 <p>A photograph of a green PCB component, similar to the one in View 3, placed on a blue textured surface. This component has a large, rectangular copper pad. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters. The ruler is oriented with 0 mm at the top and 100 mm at the bottom.</p>

<p>Solder Board-Component View 5</p>	 A photograph showing a green printed circuit board (PCB) component with eight yellow LED chips mounted on it. The component is placed on a black surface with a white ruler for scale. The ruler shows markings from 0 to 100 mm. The component is positioned horizontally, with the ruler's 0 mm mark on the left. The component's length is approximately 60 mm. The background is a blue textured surface.
<p>Solder Board-Component View 6</p>	 A photograph showing a yellow PCB component with a logo and text. The component is placed on a black surface with a white ruler for scale. The ruler shows markings from 0 to 100 mm. The component is positioned horizontally, with the ruler's 0 mm mark on the left. The component's length is approximately 60 mm. The background is a blue textured surface.

<p style="text-align: center;">Solder Board-Component View 7</p>	 A photograph showing a green printed circuit board (PCB) with a black camera lens and a black plastic housing, placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the components, showing measurements in millimeters. The PCB is oriented horizontally, and the camera lens is on the right side. The plastic housing is positioned above the PCB.
<p style="text-align: center;">Solder Board-Component View 8</p>	 A photograph showing a green printed circuit board (PCB) with various electronic components, placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the PCB, showing measurements in millimeters. The PCB is oriented horizontally.
