

<p style="text-align: center;">Solder Board-Component View 9</p>	 <p>A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 9'. The board is rectangular and features a central black integrated circuit (IC) with the 'NORTEL' logo. To the left of the IC is a yellow multi-pin connector. The board is populated with various surface-mount components, including resistors and capacitors. It is placed on a blue perforated surface. A black ruler with white markings is positioned vertically to the left and horizontally below the board, showing measurements in millimeters. The vertical ruler shows markings from 10 to 50 mm, and the horizontal ruler shows markings from 10 to 70 mm.</p>
<p style="text-align: center;">Solder Board-Component View 10</p>	 <p>A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 10'. This board is more densely populated with components than the one in View 9. It features a central black IC, a yellow connector on the left, and a larger multi-pin connector at the bottom. The board is placed on a blue perforated surface. A black ruler with white markings is positioned vertically to the left and horizontally below the board, showing measurements in millimeters. The vertical ruler shows markings from 10 to 50 mm, and the horizontal ruler shows markings from 10 to 60 mm.</p>
