

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS**EUT Housing and Board
View 1****EUT Housing and Board
View 2**

Solder Board-Component View 1	 A photograph of a custom printed circuit board (PCB) assembly, labeled 'Solder Board-Component View 1'. The board is populated with various electronic components, including a central microcontroller unit (labeled '20210312'), a USB port, and several integrated circuits. A green component is visible in the center. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
Solder Board-Component View 2	 A photograph of the same custom printed circuit board (PCB) assembly, labeled 'Solder Board-Component View 2'. This view shows the underside of the board, revealing the solder joints and the components mounted on the reverse side. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.

Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) component, labeled 'UNIB1-1052-LED-REV1.1 20010223', featuring ten small surface-mount LEDs. The component is positioned horizontally against a blue textured background. A black ruler with white markings is placed below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component's length is approximately 100 mm.
Solder Board-Component View 4	 A photograph of a silver-colored PCB component, likely a heat sink or a different type of LED assembly, positioned horizontally against a blue textured background. A black ruler with white markings is placed below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component's length is approximately 100 mm.

Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) component, labeled '5', placed on a blue textured surface. The component is rectangular with various electronic components and a large circular copper pad. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler has markings from 0 to 100 mm on the top and bottom edges, and from 0 to 70 mm on the left edge.
Solder Board-Component View 6	 A photograph of a green printed circuit board (PCB) component, labeled '6', placed on a blue textured surface. The component is rectangular with various electronic components and a large circular copper pad. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler has markings from 0 to 100 mm on the top and bottom edges, and from 0 to 70 mm on the left edge.
