

E-label

The product will use an E-label , and the product is small leaving no space for the permanent labeling directly on the device. The label is easily accessed on the Wyze Watch 44 as shown in the figures below:

(1) If the device is not paired. swipe up the screen and tap into Regulatory page for FCC/IC information

(2) If the device is already paired: tap into Settings page, select Regulatory, for FCC/IC information
