

- Dispose of these properly and keep them out of reach of children and pets, as they could present a choking hazard.
- **Do not puncture, crush, or damage any element of the Product.**
- **Do not attempt to repair or disassemble your Product yourself. Doing so may cause injury, overheating, fire, or damage not covered by the Limited Warranty, or electric shock or injury to you.**
- Do not expose any element of the Product to smoke, steam, high temperatures, high humidity, direct sunlight, or excessive low or freezing temperatures.
- Do not place any element of the Product on the floor or in a place where they may cause someone to trip or stumble.
- Do not place naked flame sources, such as lighted candles, on or near the Product.
- Do not drop or crush the Product.
- Do not clean with chemical cleaners. Use a soft, dry cloth.
- Do not place Product directly on oil or wax based wood finished surfaces.
- Dispose of the Product according to local standards and regulations.

Additional Legal Notices

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution:

Any changes or modifications not expressly approved by Roku, Inc. could void the user's authority to operate this equipment.

2.4 GHz band operation of this product in the US is firmware-limited to channels 1 through 11.

Important Note:

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. The availability of some specific channels and/or operational frequency bands are country dependent and are firmware programmed at the factory to match the intended destination. The firmware setting is not accessible by the end user.

Warning

Do not use the battery near a heat source. Do not use the battery near fire or an oven, or in an ambient temperature exceeding 80°C. Over-heating may cause an internal short-circuit, heat generation, smoking, deformation or burning.

Contains a Lithium Ion Battery

Always dispose of batteries following local recycling guidelines. Do not dispose of batteries in household waste or open fire. For more information about recycling and the battery included, see: <https://support.roku.com/article/208755678>

A Roku account is required to activate your Product.

Please read and keep all safety and use instructions.

Important Product Information Safety Precautions

⚠ Any electrical device, if used improperly, has the potential for causing fire, electrical shock, property damage or personal injury. To help ensure accident-free and enjoyable operation, follow these guidelines:

- Observe all warnings, precautions, and instructions.
- Regularly inspect all elements of the Product for damage.
- If the Product has been damaged, cracked or punctured, or if the Product functions in an abnormal manner, produces unusual sounds, or smells or becomes hot, immediately stop use, unplug any power adaptors or cables from the electrical outlet and disconnect any other cables.
- Observe all signs and displays that require an electrical device or RF radio product to be switched off in designated areas.

For more information on product safety and troubleshooting, please go to support.roku.com.

Use and Handling

- ⚠ The Product is not a toy. Product packaging may include plastic bags, mounting hardware, and fasteners.

ISED Compliance Statements

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause interference. (2) This device must accept any interference, including interference that may cause undesired operation of the device.

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

- a) the device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;
- b) the maximum antenna gain permitted for devices in the band 5725-5825 MHz shall comply with the e.i.r.p. limits specified for point-to-point and non point-to-point operation as appropriate.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) L'appareil ne doit pas produire de brouillage; (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet équipement est conforme aux limites d'exposition aux radiations IC CNR-102 établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20cm entre le radiateur et votre corps.

- a) les dispositifs fonctionnant dans la bande 5150-5250 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux;
- b) le gain maximal d'antenne permis (pour les dispositifs utilisant la bande 5725-5825 MHz. doit se conformer à la limite de p.i.r.e. spécifiée pour l'exploitation point à point et non point à point, selon le cas.
