## Operators Guide

# GMR-3KJ

Congratulations on your choice of GMR-3K AM/FM Bluetooth Source Unit by Hifonics. For more detailed information about the product, please visit our website at [www.Hifonics.com](http://www.Hifonics.com)

## CAUTION

Always consider consulting a professional audio installer before installing any audio components. Be careful and take your time. Do not let wires make contact with metal edges or hot engine components.

## General Information

### Marine & Powersports Source Unit

AM/FM Radio  
160 Watts Peak Power  
Pre Amplifier Unbalanced Line Outputs  
Gauge Mount  
Splash Proof LCD with Clock  
Add up to 2 wired remotes

### Hifonics Bluetooth Connect

Bluetooth Connection  
USB Input  
Auxiliary RCA Input

### Installation & Power Specifications

4 Channels x 40 Watts (160 Watts Peak Power)  
3.125" / 79mm Total Mounting Depth  
2.9" / 73mm Cut Out Diameter

### AM / FM Section

USA Frequency: FM87.9 – 107.9MHz / AM530-1710kHz  
Europe Frequency: FM87.5 – 108MHz / AM522 – 1620kHz  
Intermediate Frequency: 10.7MHz  
Noise Limit Sensitivity: >5uV  
Intermediate Frequency Rejection: 50dB

### MP3 Section

Signal to Noise Ratio: >55dB  
Frequency Response: 20Hz – 20KHz  
A/D Conversion Filter: 16BIT

### Audio & Other Section

Power Output: 4 x 40 Watts Maxx  
Power: DC +12 Volt Battery  
Load Impedance: 4 - 8 Ohms / Channel

## Controls

- 1 POWER Button**
  - Press the POWER button to power on the unit.
  - Press the POWER button to mute the audio.
  - Press and hold the POWER button to power the unit off.
- 2 VOL+ Button**
  - Press the VOL+ button to increase the volume.
- 3 VOL- Button**
  - Press the VOL- button to decrease the volume.
- 4 ▲ Button**
  - Press the ▲ button to track up.
- 5 ▼ Button**
  - Press the ▼ button to track down.
- 6 BAND ►|| Button**
  - Press the BAND button to switch between AM & FM in Radio mode.
  - Press the BAND button to play / pause in USB mode.
- 7 MODE Button**
  - Press the MODE button to switch between RADIO / BT / MUSIC / USB / AUX IN.
  - Press and hold the MODE button for 2 seconds to access the Adjustment Menu.

## Basic Operation

### Radio (AM/FM) Operation

- Press BAND button to switch between AM & FM.
- Press the ▲ or ▼ buttons less than 2 seconds to automatically seek the next / previous strong radio stations.

### Apple Control / USB / MP3 Operation

- Insert a USB device and the unit will read the music files automatically.
- Press the ▲ or ▼ buttons to play next / previous song.
- Press and hold the ▲ or ▼ buttons for more than 2 seconds to fast forward / rewind the song.
- Press the ►|| button to pause / resume the current song.

### Bluetooth Operation

This unit supports Bluetooth for wireless music streaming from a mobile device.

#### BT Connection Function:

- Power on your GMR-3K unit
- Turn on the Bluetooth on your device.
- Scan for the Bluetooth Unit "KAWASAKI" on your mobile device.
- Select "KAWASAKI" and the connection will then be made automatically.

**Note:** Some Bluetooth devices require inputting a pass code for connection. Please input code "0000" and the connection will be made automatically.

**Note:** Once the unit has made a connection with your Bluetooth device for the first time, the unit can then connect to your Bluetooth device automatically within a valid range.

#### BT Audio Function:

- Press the ▲ or ▼ buttons for previous / next song.

# Adjustment Menu

To access the Adjustment menu press and hold the MODE button for 2 seconds and then press the MODE button to switch between BAS / TRE / FAD / LOUD / EQ / AREA USA-EUR / TIME MODE / BEEP.

## Equalization (EQ)

-Use the VOLUME buttons to select EQ as FLAT, CLASSIC, POP or ROCK. Default setting is "OFF."

## Area Tuning

-This option allows you to select the appropriate frequency spacing for your location (USA or Europe).  
-Use the VOLUME buttons to switch between USA and Europe frequencies.

## Time Format

-Use the VOLUME buttons to switch between 12 hour (USA) and 24 hour (Europe) clock.

## BASS Level

-Use the VOLUME buttons to adjust the Bass Level range from -7 to +7. Default setting is "0."

## TREBLE Level

-Use the VOLUME buttons to adjust the Treble Level range from -7 to +7. Default setting is "0."

## BALANCE Control

-Use the VOLUME buttons to adjust the Balance Level between the left and right speakers from L7(full left) to R7(full right).

## FADER Control

-Use the VOLUME buttons to adjust the FADER between the front and rear speakers from F7(full front) to R7(full rear).

## LOUD Control

-Use the VOLUME buttons to select Loudness either ON or OFF. Default setting is "OFF."

## BEEP Control

-Use the VOLUME buttons to select if BEEP sound is either ON or OFF. Default setting is "ON."

## Diagnostics & Trouble Shooting

Problem	Cause	Solution
No power	<ol style="list-style-type: none"><li>1. Incorrect wiring</li><li>2. Fuse is blown</li><li>3. The wiring harness is not connected</li></ol>	<ol style="list-style-type: none"><li>1. Re-check wiring</li><li>2. Replace fuse</li><li>3. Re-check wiring harness connection</li></ol>
No sound	<ol style="list-style-type: none"><li>1. Volume is too low</li><li>2. Speaker connection loose or wired incorrectly</li></ol>	<ol style="list-style-type: none"><li>1. Increase volume</li><li>2. Double check connection and re-attach</li></ol>
No reception	<ol style="list-style-type: none"><li>1. The antenna cable is not connected</li><li>2. The signals are too weak</li></ol>	<ol style="list-style-type: none"><li>1. Insert the antenna cable securely</li><li>2. Select a station manually</li></ol>
USB stick not reading	<ol style="list-style-type: none"><li>1. Music file is neither MP3 or WMA format</li></ol>	<ol style="list-style-type: none"><li>1. Convert music file format into MP3 or WMA format</li></ol>
AUX Input or RCA Output distortion	<ol style="list-style-type: none"><li>1. Volume may be up too much on external device</li></ol>	<ol style="list-style-type: none"><li>1. Lower volume on external device until distortion goes away</li></ol>

If you have problem or question that wasn't mentioned above please visit our website at [Hifonics.com](http://Hifonics.com) and go to the TEQ Support section or the Frequently asked questions.

## **FCC Caution**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
