

Congratulations on your choice of Hifonics THOR Sound Bars. This “Quick Start” Installation guide is meant to help you complete a basic installation. For more detailed information about the product, please visit our website at Hifonics.com

Wiring

The wiring and connections should be secure and away from any moving parts or extremely hot surfaces.

Controls

- ❶ Power - Will turn the unit on or off / Five second hold/ quick push will switch inputs.
- ❷ Track BACKWARDS - Press to restart the current track or to back up to previous tracks.
- ❸ Volume UP - Each press will increase the volume.
- ❹ Volume DOWN - Each press will decrease the volume.
- ❺ Track FORWARD - Press to advance to the next track.
- ❻ Map Light / Illumination - Turn on Map Light, cycle through illumination settings.
- ❼ PLAY / PAUSE - Press once to pause. Press again to play.

Bluetooth Device Pairing

The pairing process can vary based on your particular device. Refer to the operating instructions of your device. Below is the general process to connect.

During unit power up, the blue LED on the bottom of the control panel will blink indicating that it is in Bluetooth search mode.

During this process “THOR” should show up in your list of Bluetooth devices when the search has connected with your device. When the connection is made the blue LED will change to a solid color.

Once a device has been paired, the unit will reconnect at power up to that device when in range.

To connect to a different device, the first device will need to be disconnected.

When a phone call is received, the audio signal will mute but not disconnect.

To switch to 3.5mm press the power button quickly.

To switch back to BT press the power button again quickly.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
