Problem	Causes and troubleshooting
The massage chair can not operate even though it has been connected to the power supply.	<ul style="list-style-type: none">● Check whether the plug is well connected and working well.● Check whether the main switch on the massage chair is turned to position "I".
During operation, the controller is working, but the chair can not work	<ul style="list-style-type: none">● The massage chair could be overheated after prolonged use. It will automatically cool down to resume its normal condition.● Please turn off the power and allow the chair to cool down for 30 or 50 minutes.
During operation, both the controller and the massage can not work	<ul style="list-style-type: none">● If the set-time in the Timer is complete, please press the timer function again to resume operation.● Switch OFF the power and switch ON again to restart the chair.

Safety check

Regular Maintenance Will Preserve the Life of Your Chair

Have you experienced any of these problems?

- The chair does not start with the Main POWER switch set to ON.
- The power cord has been cracked or scratched.
- The power cord or plug becomes abnormally hot.
- The chair produces a burnt smell, abnormal sound or vibration.
- The auto timer function does not work in some cases.
- Other failures.

If you find anything listed on the left, stop using and unplug the power cord from the outlet to prevent failure or an accident. Be sure to contact the vendor or our service center for maintenance.

To use safely

The chair fabric (roller fabric) is a consumable part, and its service life is 3 years (conditions of use: two 15-minute sessions a day, every day).
For safe use, periodic inspection by the vendor is recommended before the end of its service life.
* Durable years vary depending on conditions of use.
* After about five years of use, a professional inspection is recommended even if there are no symptoms or problems. For inspection fees, contact the vendor.

Storage and care

Storage

- After cleaning the dirt and dust, place the chair in a dry place.
- If the chair is left unused for a while, please cover the chair to prevent from dust.
- Pets sometimes chew on power cord, so try to keep the pets away from the chair even when it is stored.

CAUTION Do not install the chair where it can come into contact with direct heat, such as direct sunlight or a radiator.

Care and Maintenance

CAUTION ● When cleaning the chair, be sure to unplug the power plug from the wall outlet first. Do not plug or unplug the power plug with wet hands.

[Caring for the Back Pad and Covers]

Soak a piece of soft cloth in lukewarm water in which a small amount of mild detergent has been added. Then thoroughly wring it out before cleaning off any spots or grime.

CAUTION ● The fabric color can change if the chair is in contact with vinyl covers or wall coverings for a prolonged period of time.

[Caring for Other Plastic Parts]

Soak a piece of soft cloth in lukewarm water in which a small amount of mild detergent has been added, thoroughly wring it out, and clean off any spots or grime. Then wipe with a dry cloth so that no detergent residue remains.

CAUTION ● Do not use alcohol-based or other household cleaning products or abrasives because they can scratch or crack the finish or cause color to fade.

[Caring for the Remote Control]

Wipe dirt off the remote control with a dry cloth.

CAUTION ● Never use a moistened or wet cloth. May result in a mechanical failure.

Accessories	Main power cord, Controller, manual book, warranty card, accessories bag for installation

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this device.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
