

# USER MANUANL

## Product Specifications

Applications	Remote control switch
Standby Power consumption	<0.5 W
Working temperature	-20°C ~80°C
Control Method	RF 433Mhz Remote

### ➤ RF 433Mhz Remote Control (Right Diagram)

① LED Light	Indicator LED Light
② LOW/MED/HI	Minimum, medium, maximum Fan speed
③ STOP	Stops Fan
④ 2H/4H/8H/1H	Fan & Light Timer
⑤ Light ON/OFF	Switch Light from on & off

**RF Remote Control is matched with Controller at the factory**

## Receiver (Right Diagram)

AC IN L (Left Black)	Input load wire
AC IN N (Left White)	Input neutral wire
TO MOTOR L (Right Black)	Output load wire (Fan)
FOR LIGHT (Right Blue)	Output load wire (Light)
TO MOTOR N (Right White)	Output neutral wire (Light & Fan)

#### FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following

two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
