

Instructions

The **B1BT** is easy to use. By following these simple instructions you'll be enjoying your music in seconds.

1. To operate using the line in 3.5mm Jack (supplied) position the switch to the left (On). Insert the mini-usb (supplied) into the port on **B1BT**. Insert the 3.5mm jack into your audio device. To control please refer to your normal operating procedure on your audio device.
2. To operate using Bluetooth position the switch to the right (BT). **B1BT** will produce an audible chime to signify it is in Bluetooth mode.
3. To pair **B1BT** with your audio device, ensure your audio device is in discoverable mode. On the audio device select **Vibro-Speaker** and select pair. You will be required to enter the pairing code "0000" (four zeros). This operation is only required once. Control your audio by using your audio device's operating procedure. **B1BT** will remember the device you have paired. For future use switch **B1BT** to BT mode and ensure your device has Bluetooth enabled.
4. To charge the device insert the mini USB into the port and the USB into the USB port of a computer or charger. Many mobile phones are supplied with USB chargers which can be used. **B1BT** can still be operated whilst being charged.

5. To turn **B1BT** off position the switch in the centre. To avoid Battery drain please ensure that you always slide the switch to the middle setting when it is not in use.

Compatible with:

PC   Bluetooth    (360°) 10watt

FCC Warning

15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B

digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

FCC RF Radiation Exposure Statement:

- 1.This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
- 2.This equipment complies with RF radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 5mm between the radiator and your body.
