

# H69A73 User Manual

## WHAT'S IN THE BOX

- Wireless Remote, Model H69A73
- 2xAAA Batteries

## Device Set-up

- Insert the batteries and install the compartment cover
- Pair Device to the host equipment (media player): Choose the applicable pairing instructions from the options below:

### A. This is a replacement remote:

1. Restart your XXX TV stick by unplugging the power cable from your power outlet than plugging it back in. After the TV home screen displays, your remote is ready for pairing.
2. Press and hold the Home button on the new remote for at least 10 seconds. Your new remote should automatically pair with your XXX TV stick. You will see an on-screen message when it has successfully paired.

### B. This is an additional remote:

1. On your new remote, press and hold the Home button for 120 seconds to enter discoverable mode.
2. You must use your existing remote for the following steps. Press the Home button.
3. Navigate to the Settings location at the top of the screen. Select Controllers and Bluetooth Devices > XXX Remotes > Add New Remote. Your TV with the XXX TV stick will search for discoverable remotes, and display them in a list.
4. Select the New Remote, named XXX TV remote. You will see an on-screen message when it has been successfully paired.

## Use your Voice Search

- Hold down voice search button and speak

Caution: risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.

## IMPORTANT PRODUCT INFORMATION

For safety, compliance, recycling, and other important information regarding your Device, please refer to the Legal & Compliance section in the User Manual.

# Product Information

## Safety and Compliance Information

### Using Your Device Around Other Electronic Devices

The Device, uses, and can radiate radio frequency (RF) energy and, if not used in accordance with its instructions, may cause interference to radio communications and electronic equipment. External RF signals may affect improperly installed or inadequately shielded electronic operating systems, entertainment systems, and personal medical devices.

While most modern electronic equipment is shielded from external RF signals, if in doubt, check with the manufacturer. For personal medical devices (such as pacemakers and hearing aids), consult with your physician or the manufacturer to determine if they are adequately shielded from external RF signals.

There are some places where RF signals could constitute a hazard, such as health care facilities, and construction sites. If you are not sure, look around for signs indicating that two-way radios or mobile phones should be turned off.

## FCC Compliance Information

### Radio Frequency Information

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications that are not expressly approved by the party responsible for compliance could make the device no longer comply with the FCC Rules.

Information on your device is on file with the FCC and can be found by inputting your device's FCC ID into the FCC ID Search form at [transition.fcc.gov/oet/ea/fccid](https://transition.fcc.gov/oet/ea/fccid). The FCC ID is can be found in the battery compartment of the Device, underneath the batteries.

## Information Regarding Exposure to Radio Frequency Energy

The output power of the radio technology used in the Device is below the radio frequency exposure limits set by the FCC. Nevertheless, it is advised to use the Device in such a manner that minimizes the potential for human contact during normal operations.

## IC Compliance Information

### Radio Frequency Information

This device complies with Industry Canada's license-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

The device could automatically discontinue transmission in case of absence of information to transmit, or operational failure. Note that this is not intended to prohibit transmission of control or signaling information or the use of repetitive codes where required by the technology.

## Information Regarding Exposure to Radio Frequency Energy

This equipment complies with IC RSS-102 RF exposure limits set forth for an uncontrolled environment when used as intended.

Please keep the remote at least 10mm from your head when using voice control.

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé.

Veuillez garder la télécommande à au moins 10 mm de votre tête lorsque vous utilisez la commande vocale.

CAN ICES-3(B)/NMB-3(B)

## Recycling Product Properly

In some areas, the disposal of certain electronic devices is regulated. Make sure you dispose of or recycle the Products in accordance with your local laws and regulations. For information about recycling the Products, go to [www.amazon.com/devicesupport](http://www.amazon.com/devicesupport).

## Product Specifications

Model Number: H69A73

3VDC (2 AAA Batteries)

Connectivity: BLE

Operating temperature: 0°C to 35°C
